Agenda Item #1: Detailed review of feedback received on Climate Action Plan and updates thereto

The updated plan was reviewed individually by committee members and their feedback was incorporated into one draft. The most recent version, focusing on section 4.2, Building – Technology and Design, was reviewed as a committee.

Laura Burns and Brianna Bennett provided explanation of their comments on section 4.2 and the new graphics added to the plan.

Agenda Item #2: Review timeline for finalizing the Climate Action Plan

Timeline to complete the plan was reviewed.

A suggestion was made by Laura Burns to review section 4.2 again in the future with a focus more on building design and materials as there was more opportunity in this area we moved ahead.

A request was made to add in more pictures and suggestions made on options for images that could be integrated into the final draft.

A question was asked about adding a picture of committee to make it feel more personalized to the local community. This was discussed as a possibility to add in later when we can get the full group together.

Committee members next steps are to read through the plan in entirety for comments and remaining edits and provide these by July 14.

The meeting adjourned at 7:44 pm.
