

**Town of Hingham, Massachusetts**  
**Annual Comprehensive Financial Report**

**For the Fiscal Year Ended June 30, 2022**

After a three-year hiatus due to a lack of volunteers, not enough money, environmental concerns and the coronavirus pandemic, the fireworks show in Hingham Harbor will return on Sept. 10 “bigger and better than ever.”

With the help of Showcase Cinemas, a movie theater that will open at Hanover Crossing in the fall, the Hingham Lions Club will again present the Hingham Harborworks show.

Originally scheduled to return on July 1, 2022, the event was postponed due to the presence of protected wildlife on Button Island, where the fireworks display is launched.

The 2020 fireworks show and annual parade were canceled due to the pandemic, and last year officials canceled the fireworks again despite the return of the parade. By the time restrictions were lifted last year, Lions Club representatives said it was too late to secure the required permits.

## Letter of Transmittal

October 28, 2022

### To the Citizens of the Town of Hingham, Massachusetts:

The Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2022 for the Town of Hingham, Massachusetts is hereby submitted for your consideration.

State law requires the Town of Hingham to publish at the close of each year a complete set of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) that are audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the Town. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Town has established a comprehensive internal control framework that is designed to both protect the Town's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Town's financial statements in conformity with GAAP. As management, we assert that this financial report is complete and reliable in all material respects.

The Annual Comprehensive Financial Report is designed to be used by the elected and appointed officials of Hingham in addition to those entities concerned with the Town's management and development including credit rating agencies, bond analysts, investors, and financial institutions. The format of the report enables the Town to present complex financial data in a manner that is easier for citizens and taxpayers of the Town of Hingham to review and understand.

The Town of Hingham's financial statements have been audited by CliftonLarsonAllen LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Hingham for the year ended June 30, 2022 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion on the Town of Hingham's financial statements for the year ended June 30, 2022 and that they are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the Town of Hingham was part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. These reports are available in the Town of Hingham's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town of Hingham's MD&A can be found immediately following the report of the independent auditors.

### **Profile of the Town of Hingham**

This Annual Comprehensive Financial Report includes all of the operational departments of the Town. The Hingham Housing Authority is not included in the reporting entity because it does not meet the criteria for inclusion. The Hingham Public Library, the Lincoln Apartments, LLC, and the Hingham Contributory Retirement System are included in this report as component units, with the Hingham Public Library and the Lincoln Apartments, LLC being presented as discrete units, and the Hingham Contributory Retirement System being presented as a fiduciary fund within the statement of fiduciary net position.

The Town of Hingham is a seacoast community located approximately 20 miles southeast of downtown Boston. Primarily an established single family community, Hingham has several historic village districts and more recent single family subdivisions that were constructed within the last 40 years.

The Town provides general government services including police and fire protection, disposal of rubbish, public education, streets, recreation, and a municipal golf course (The South Shore Country Club). The Massachusetts Water Resources Authority (MWRA) provides certain sewer services to the Town. A municipal sewer system serves approximately 27% of the households of the Town. The Hingham Municipal Lighting Plant, a self-supporting enterprise, provides electric power to the Town, and the Weir River Water System, a self-supporting enterprise, provides water services to the Town. The Town purchased the private water company (Aquarion) on July 31, 2020. The Hingham Housing Authority maintains housing for elderly and handicapped residents. In addition, the Town has a Department of Elder Services to service senior citizens with various programs as well as outreach projects. Bus services are provided by the Massachusetts Bay Transit Authority and connect to established stations of the Authority.

Several recreational programs are provided among the parks located throughout the Town, in addition to significant beach and swimming facilities. Bare Cove Park contains 468 acres and was a former federal ammunition depot. It is mostly in its original pristine condition with many trees and forests and is adjacent to the scenic Back River. It provides walking and bicycle trails, nature studies, picnic facilities and other items of interest.

The Commonwealth of Massachusetts maintains Wompatuck State Park in the Towns of Hingham and Cohasset containing 3,509 acres, of which 2,047 acres are in Hingham. In addition to the facilities provided by Bare Cove Park, Wompatuck offers hiking trails in the summer which become cross country skiing trails in the winter, and extensive camping facilities are provided.

The Town is located in Plymouth County and the principal services provided by the County are court facilities, a jail and house of correction, and registry of deeds and probate.

The three-member elected Select Board is the administrative authority; however, the Town has a diverse government with many elected and autonomous boards and committees. A Town Administrator is appointed by the Select Board and is responsible for day to day administration.

### **Factors Affecting Economic and Financial Condition**

During the third quarter of FY20, COVID-19 pandemic hit all facets of the country, the economy is no exception. The Town of Hingham continues to reflect a strong economic condition; per capita income is significantly higher than state averages and the unemployment rate has always been extremely low as compared to state and national averages. The unemployment has decreased again this year after spiking in FY2020, due to the pandemic, it was at a historic high throughout the country. Town Management had developed a Financial Plan to mitigate the effects of the pandemic on the economy. The plan used excess fund balance to bridge any projected revenue shortfalls and strict expenditure controls for the FY2021 and FY2022 budgets. As a result of this Financial Plan the town ended Fiscal Year 2022 with a slight increase to Fund Balance. The Town remains a very desirable community given its close proximity to Boston and the level and quality of services provided. The residential sales market has been and continues to be very strong, reflecting the great interest in the community.

Over the past ten years the town's population has increased approximately 10.8% while school enrollment has decreased 12.26%. This decrease has been in the last three years due to the pandemic. Hingham Public Schools were totally virtual throughout the pandemic, while private schools were not. Hingham is known throughout the state for its high quality school system; Hingham students consistently score in the top percentiles on national and state tests and an extremely high percentage of students graduating from the high school go on to pursue higher education

### **Long-term Financial Planning**

The Town Administrator along with the financial officers, which consist of the Town Accountant, the Treasurer/Collector, and the Director of Assessing work closely with the Select Board, Advisory Committee, Capital Outlay Committee and Department Heads to develop short-term and long-term financial goals and to address the financial stability of the Town.

### **Major Initiatives**

Since the mid 1990's the Town has consistently made capital expenditures a high priority. In the early 2000's due to economic conditions and budget restraints the amount of capital spending was reduced from normal levels of \$2-\$3 million annually. The Town expects to be able to appropriate capital spending in the \$2-\$2.3 million range for fiscal year 2023.

### **Financial Information**

**Financial Management.** The Advisory Committee, Select Board and School Committee have adopted a Financial Policy. It is a comprehensive statement covering financial management, capital expenditures and debt service. The purpose of the Policy is to stabilize tax rates and control expenditures. It is expected to give guidance to the preparation, review and approval of budgets.

The Policy recommends that Available Reserves (Unassigned Fund Balance) be maintained at a level of no less than 16% and no more than 20% of total annual appropriations. Each year that Available Reserves increase, any excess of the above level should be available for spending or for tax reductions in accordance with the policy.

**Internal Controls.** Management of the Town is responsible for establishing and maintaining an internal control structure designed to ensure the assets of the Town are protected from loss, theft or misuse and to ensure that accurate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Town Administrator and the fiscal team are responsible for evaluating the adequacy and effectiveness of the internal control structure and implementing improvements. Because the cost of internal controls should not outweigh their benefits, the Town of Hingham's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement.

The Town voted at the Annual Town Meeting held on April 27, 2010 to establish an Audit Committee. The Committee assists in the selection and monitoring of an independent auditing firm to conduct annual audits of the financial statements of the Town. The Committee supervises and reviews the conduct of the audit and the auditor's relationship with the Town. The Chair of the Audit Committee is also a member of the Whistleblower Committee.

**Budgetary Controls.** The Town Administrator is responsible for the preparation of the executive budget and initiates the process with the development of a five-year financial forecast and budget guidelines for the coming year, which starts in October/November. The various department heads prepare the budgets for departments under their jurisdiction and meet with the Town Administrator for approval. The Town Administrator reviews all budgets and recommendations are submitted to the Select Board. The Select Board conducts budget meetings with each department to review their requests. The Select Board then recommends to the Advisory Committee the budget. The 15 member Advisory Committee reviews the budgets approved by the Select Board; attempts to resolve any differences and then prepares the annual budget recommendations to the Town Meeting, which is the body that has final approval authority. The Annual Town Meeting (April) legally adopts the budgets for the General Fund and the Community Preservation Fund. Once approved, the budgets are controlled at the department level with the Town Accountant approving all payrolls and invoices. The Advisory Committee, based on a recommendation of the Select Board, may approve subsequent transfers from a reserve fund.

The Treasurer/Collector is responsible for all of the Town's cash and investments, debt management and payment of invoices. The Town Accountant sets the tax rate, while the Assessors commit the real estate taxes, personal property taxes and motor vehicle excise taxes to the Treasurer/Collector for collection. About 99% of all real estate taxes are collected during the year of billing with the remaining 1% collected the following year. This efficiency greatly aids the Treasurer/Collector in not only reducing or avoiding temporary loans but also maximizing investment potential.

The Treasurer/Collector, in common with other towns as a result of permissive legislation, changed from a semi-annual billing system to a quarterly billing system in 1992. This change has not only eliminated the need for temporary borrowings, which were costing the Town \$150,000 per year, but also provided temporary excess cash beyond immediate needs which is available for short-term investment.

In addition to approval authority over all disbursements, the Town Accountant is responsible for providing accurate and timely estimates of the Town's current and future financial position to the Town Administrator. Also, the Town Accountant holds quarterly budget review meetings with departments to ensure they are within their approved budgeted appropriation.

The Town Administrator holds quarterly meetings with the Town's financial officers to establish goals and objectives and to review monthly reports of comparison of budgeted revenues and expenditures with actual.

## Other Information

**Certificate of Achievement for Excellence in Financial Reporting.** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Hingham for its ACFR for the year ended June 30, 2021. This was the twenty-sixth consecutive year that the government has achieved this prestigious award. In order to be awarded the Certificate of Achievement, a governmental unit (state, county, district, or town) must publish an easily readable and efficiently organized Annual Comprehensive Financial Report whose contents conform to program standards established by the Government Finance Officers Association of the United States and Canada (GFOA). Such reports must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

**Independent Audit.** The financial statements for the year ended June 30, 2022 were audited by the public accounting firm of CliftonLarsonAllen LLP. The financial statements have received an "unmodified opinion" from the auditors. An "unmodified opinion" is the best opinion which a governmental unit can receive. It indicates that the financial statements were prepared in accordance with generally accepted accounting principles and that they are fairly presented in all material aspects.

Additionally, the Town is required to have a single audit, under the requirements of the Single Audit Act of 1984, of all Federal programs, as prescribed in the audit requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance).

## Acknowledgments

A special gratitude is owed to James Piotrowski and Christian Rogers, Principals at CliftonLarsonAllen LLP, whose attention to the 2022 financial statements was invaluable. We want to express our appreciation to the accounting personnel, William Hartigan, Huong Pham, Lynn Phillips, and Aksana Holmes for their invaluable assistance with the preparation of this Annual Comprehensive Financial Report; and to Kate Richardsson (IT Department) for her work on the cover design. We wish to acknowledge their efforts, and the efforts of all the Town departments that assisted in the production of the final report.

Cordially yours,

Tom Mayo

Town of Hingham, Massachusetts  
Annual Comprehensive Financial Report  
For the Year Ended June 30, 2022

## INDEPENDENT AUDITORS' REPORT

To the Honorable Select Board  
Town of Hingham, Massachusetts

### *Report on the Audit of the Financial Statements*

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Hingham, Massachusetts (the Town), as of and for the year ended June 30, 2022 (except for the Hingham Municipal Lighting Plant, Hingham Contributory Retirement System and Lincoln Apartments, LLC, a discretely presented component unit, which is as of and for the year ended December 31, 2021), and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town, as of June 30, 2022 (except for the Hingham Municipal Lighting Plant, Hingham Contributory Retirement System and Lincoln Apartments, LLC, a discretely presented component unit, which is as of and for the year ended December 31, 2021), and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Hingham Municipal Lighting Plant, a major enterprise fund which statements reflect total assets and net position constituting 33% and 66%, respectively, of total assets and net position of the business-type activities as of December 31, 2021, and total revenues constituting 81% of total revenues of the business-type activities for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the business-type activities of the Hingham Municipal Lighting Plant, is based solely of the report of the other auditors.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Emphasis of Matter*

As discussed in Note 2 to the financial statements, effective July 1, 2021, the Town adopted new accounting guidance for leases. The guidance requires lessees to recognize a right-to-use lease asset and corresponding lease liability and lessors to recognize a lease receivable and corresponding deferred inflow of resources for all leases with lease terms greater than twelve months. Our opinions were not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, general fund and community preservation budgetary comparisons, and certain pension and other postemployment benefits information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial

statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual fund statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2022, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town's internal control over financial reporting and compliance.

# **Management's Discussion and Analysis**

## Management's Discussion and Analysis

This analysis, prepared by the Town Accountant, offers readers of the Town's financial statements a narrative overview and analysis of the financial activities of the Town of Hingham for the year ended June 30, 2022. This is the 18th year our financial statements have been prepared under the Government Accounting Standards Board Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. We encourage readers to consider the information presented in this report in conjunction with additional information that we have furnished in our letter of transmittal.

The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body that provides guidance on how to prepare financial statements in conformity with generally accepted accounting principles (GAAP). Users of these financial statements (such as investors and rating agencies) rely on the GASB to establish consistent reporting standards for all governments in the United States. This consistent application is the only way users (including citizens, the media, legislators and others) can assess the financial condition of one government compared to others.

Governments must adhere to GASB pronouncements in order to issue their financial statements in conformity with GAAP. The users of financial statements also rely on the independent auditor's opinion. If the Town's financial statements have significant departures from GAAP the independent auditors may issue a modified opinion or a disclaimer (where no opinion is given). These types of opinions may have an adverse effect on the Town's bond rating and our ability to borrow money at favorable interest rates. The Town has enjoyed an unmodified opinion on its financial statements for many years.

### Financial Highlights

- The government-wide assets and deferred outflows of the Town of Hingham exceeded its liabilities and deferred inflows of resources at the close of the most recent year by \$68.3 million and \$61.9 million (net position) for governmental activities and business-type activities, respectively.
- At the close of the current year, the Town of Hingham's general fund reported an ending fund balance of \$48.5 million, including \$2.2 million set aside in stabilization funds, an increase of approximately \$735,000 over the prior year. Total fund balance represents 39.7% of total general fund expenditures. Approximately \$37.9 million of this total amount is available for appropriation at the Town's discretion.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Hingham's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to private-sector businesses.

The statement of net position presents information on all of the Town's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities include general government, public safety, public education, public works, human services, culture and recreation, community preservation, and interest. The business-type activities include the activities of the South Shore Country Club, the Hingham Municipal Lighting Plant, and the Weir River Water System enterprise funds.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Fiscal year 2011 was the Town's initial year of implementation of GASB #54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The implementation of this standard has changed the fund balance components into nonspendable, restricted, committed, assigned and unassigned. Additionally, under the new standard, the Town's stabilization funds are reported within the general fund as unassigned.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The Town's general fund and Community Preservation fund are shown separately and the remaining governmental funds are aggregated and shown as nonmajor governmental funds.

The Town adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary funds.** The Town maintains one proprietary fund type.

*Enterprise funds* are used to report the same functions as business-type activities in the government-wide financial statements, only in more detail. The Town uses enterprise funds to account for its country club and electric lighting operations, both of which are considered major funds of the Town.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town of Hingham, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$130.1 million at the close of 2022.

Government-wide net position of \$142.2 million reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town of Hingham's net position, \$33.2 million, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position resulted in a deficit of \$45.3 million mainly related to the cumulative effects of recording pension and other postemployment liabilities.

Details related to the Town's governmental and business-type activities follow.

**Governmental activities.** The governmental activities net position increased by approximately \$6.6 million during the current year as compared to an increase in net position of approximately \$8.2 million during the prior year. Total revenues increased 0.3%, while total expenses increased 0.4%.

Current assets decreased by \$1.0 million primarily for a decrease in intergovernmental receivables (\$1.1 million). Noncurrent liabilities decreased \$18.4 million primarily for the decrease in the net pension liability (\$15.4 million).

As mentioned above, governmental activities net position increased by approximately \$6.6 million this year compared to an increase of approximately \$8.2 million last year. Charges for services increased \$4.9 million (11.5%), operating grants and contributions decreased \$8.9 million (25.4%) and real estate and other taxes increased \$3.1 million (3.3%).

*Other financial notes related to governmental activities:*

- Charges for services represented 11.5% of governmental activities resources. The Town can exercise more control over this category of revenue than any other. Fees charged for services rendered that are set by the Town are included in this category.
- Operating grants and contributions accounted for 17.9% of the governmental activities resources. Most of these resources apply to educational operations. These resources offset costs within the school department and supplement their general fund operating budget. Operating grants and contributions decreased by approximately \$9 million which was primarily the result of an \$8.2 million reduction in the State’s on-behalf pension contribution for Hingham teachers.

- Capital grants and contributions accounted for 1.3% of the governmental activities resources. In 2022 these mainly consisted of state grants for public works highway projects.
- Property and other excise taxes are by far the most significant revenue source for the Town's governmental activities. They comprised 67.4% of current revenues. Real estate and personal property taxes increased by approximately \$2.9 million which is primarily the result of the increase in the Town's taxable property valuation of 5.3% from the previous fiscal year.
- All other revenues comprised a total of 1.9% percent of the governmental activities resources. These primarily include penalties & interest and unrestricted contributions.
- Education is by far the largest governmental activity of the Town. After subtracting \$25.3 million of program revenues (charges for services, operating grants and capital grants) as shown on the Statement of Activities, approximately \$64.3 million in taxes and other revenues were needed to cover its 2022 net operating expenses. A pension contribution of approximately \$9 million made by the State on-behalf of Hingham teachers was recorded as an expense and grant revenue in 2022. The 2021 amount was \$17.2 million which partially accounts for the decrease in education expense and operating grants and contributions this year.
- Public safety and public works are the second and third largest activities of the Town. Approximately \$14.7 million and \$8.3 million, respectively, of taxes and other revenue were needed to cover their 2022 operating expenses.

**Business-type activities.** Business-type activities, consisting of the South Shore Country Club, Hingham Municipal Lighting Plant, and Weir River Water System, increased the Town's net position by approximately \$3.7 million. These results continue to reflect management's goal of maintaining the systems while only charging users for the cost of operations.

As shown below, business-type activities assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$61.9 million at the close of 2022. Net investment in capital assets was \$34.7 million, net position restricted for depreciation was \$19.1 million, and unrestricted net position was \$8.1 million.

The South Shore Country Club includes facilities for golf, bowling, tennis, swimming, and dining. Total revenues amounted to \$2.1 million; compared to \$2 million in 2021. Expenses increased by approximately \$400,000 mainly relating to operating and maintenance expenses increasing from the prior year. The Country Club's net position increased by approximately \$255,000 this past year.

The Hingham Municipal Lighting Plant provides electricity to Hingham residents. Total revenues amounted to \$31.2 million which was consistent with the prior year. Expenses increased by approximately \$100,000, and after transferring approximately \$480,000 to the general fund the Lighting Plant's net position increased by approximately \$1.2 million for the year.

The Weir River Water System was acquired by the Town in 2021 and distributes water to the Towns of Hingham, Hull, and Cohasset. Total revenues amounted to \$14 million in 2022 compared to \$12.3 million in 2021 which was the first year of operation under Town ownership. Expenses totaled \$11 million in 2022, an increase of approximately \$500,000 from 2021. After transferring approximately \$730,000 to the general fund the Water System's net position increased by approximately \$2.2 million for the year.

**Financial Analysis of the Government’s Major Funds**

As noted earlier, The Town of Hingham uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the Town’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town’s financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the year.

As of the end of the current year, governmental funds reported a combined ending fund balance of \$45.5 million, a decrease of \$483,000 for the year. This is mainly related to the decrease in fund balance of the nonmajor governmental funds of \$1.8 million for the year due to the expenditures for capital projects financed by short-term debt.

*General Fund*

The General Fund is the chief operating fund of the Town. At the end of the current year, the unassigned fund balance of the general fund was \$37.9 million, while the total fund balance was \$48.5 million. As a measure of the general fund’s liquidity, it may be useful to compare both the unassigned fund balance and the total fund balance to total fund expenditures. The unassigned fund balance represents 30.9% of total general fund expenditures, while the total fund balance represents 39.7% of that same amount.

The total fund balance of the General Fund increased by approximately \$735,000 during the year. The primary reason for the increase is, largely due to conservative budgeting, the Town experienced positive budget to actual variances for both revenues (\$4.5 million) and expenditures (\$4.5 million). Real estate and personal property taxes also increased by approximately \$2.9 million which is primarily the result of the increase in the Town's taxable property valuation of 5.3% from the previous fiscal year.

#### *Community Preservation*

The Community Preservation fund is a special revenue fund used to account for funds received in accordance with the Community Preservation Act (CPA). Fund Balance increased by approximately \$549,000, which was due to the excess of CPA surcharges and intergovernmental revenues in excess of expenditures.

**Proprietary funds.** The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Factors concerning the finances of these funds have already been addressed in the discussion of the Town's business-type activities.

#### **General Fund Budgetary Highlights**

The final budget increased from the original budget by approximately \$1.3 million for various purposes.

Total general fund revenues were greater than budget overall by 4%.

Total expenditures and carryovers were less than budgeted amounts by approximately \$4.5 million. Virtually every Town department contributed to the savings.

#### **Capital Assets and Debt Management**

In conjunction with the operating budget, the Town annually prepares a capital budget which includes detailed information concerning those capital requests for the upcoming year as well as summary information for the following four years to identify current projections of what level of capital outlay will be required in future years.

#### Long-Term Debt

The Town of Hingham has maintained its bond rating of "Aaa" from Moody's Investor Services, "AAA" from Fitch Ratings, and "AAA" from Standard & Poor's. These bond ratings are consistent with the prior year. This is a significant achievement as only about 6% of Massachusetts communities receive these highest ratings.

Major capital assets are funded primarily by the issuance of long-term debt and at times from the receipt of capital grants. For capital assets acquired through debt, the effect on net position during the construction phase of the project is neutral since the Town increases its assets and associated liabilities by the same amount. For capital assets acquired through capital grants, the effect on net position is positive since the Town does not use its own resources to acquire the assets. In subsequent years the net position will be reduced through depreciation and will be increased by the revenues raised to support the debt principal payments. Outstanding long-term debt of the general government as of June 30, 2022, totaled \$41.9 million, a decrease of \$3 million from the prior year due to scheduled principal payments. Funding for the majority of this debt service is from real estate taxes that have been exempt from the tax levy limitation of Massachusetts' Proposition 2 ½.

Outstanding long-term debt of the business-type activities as of June 30, 2022 totaled \$117.5 million, a decrease of \$2.5 million due to scheduled principal payments. This debt service is funded by the Weir River Water System's water user charges.

Additional information on the Town's long-term debt can be found in Note 11 of this report.

## Capital Assets

The Town's investment in capital assets for its governmental and business-type activities at the end of the fiscal year totaled \$312,628,776 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings and improvements, machinery and equipment, infrastructure, and the Weir River Water System network.

Major capital asset events that occurred during the fiscal year include the following:

- Purchase of the Weir River Water System construction in progress and network of \$4,304,000
- Public safety building construction in progress of \$1,278,000
- Foster School construction in progress of \$1,698,000
- South Shore Country Club maintenance facility construction totaling \$737,000

Additional information on the Town's capital assets can be found in Note 5 of this report.

## Pension Trust Fund

The Pension Trust Fund (System) realized an increase in net position of \$27.5 million for the year. Contributions and other additions of \$9.5 million were supplemented by net investment income of \$28.8 million, which was consistent with the prior year due to market conditions. Benefits and other deductions totaled \$11.8 million. Total net position of the System amounted to \$174.4 million at December 31, 2021.

## Other Postemployment Benefits

The Town implemented GASB Statement 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as of June 30, 2018. The governmental activities have accumulated a liability for other postemployment benefits in the amount of \$64.4 million at June 30, 2022.

The Hingham Municipal Lighting Plant implemented GASB Statement 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as of December 31, 2018. The related business-type activities have accumulated a liability for other postemployment benefits of \$1.5 million as of December 31, 2021.

The OPEB Plan's total assets set aside in trust for future benefits amounted to approximately \$23.7 million at year-end. As discussed in Note 16, the Plan's Net OPEB Liability at June 30, 2022 amounted to \$66 million.

## Discretely Presented Component Units

The net position of the Component Units represent the Hingham Public Library, a separate legal entity established in 1872, and the Lincoln Apartments, LLC a Massachusetts Limited Liability Company established in 2009 to operate affordable housing at the Lincoln School Apartment building owned by the Town.

## Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to demonstrate the Town's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Susan M. Nickerson, Town Accountant, 210 Central Street, Hingham, MA 02043.

**TOWN OF HINGHAM, MASSACHUSETTS**  
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND**  
**BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
**YEAR ENDED JUNE 30, 2022**

Net Change in Fund Balances - Total Governmental Funds.....	\$	(482,880)
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. These amounts represent the related activity of the current period.</p>		
Capital Outlays.....		5,283,446
Depreciation.....		(7,987,248)
<p>Revenues in the statement of activities that do not provide current financial resources are reported as deferred inflows of resources in the governmental funds. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in deferred inflows of resources.....</p>		
		(635,694)
<p>The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any impact on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These amounts represent the related activity of the current period.</p>		
Bond Maturities.....		4,156,776
Amortization of Bond Premiums.....		476,889
Financed Purchases Maturities.....		1,025,130
<p>In the statement of activities, interest is accrued on outstanding long-term debt, whereas in the governmental funds interest is not reported until due. This amount represents the net change in accrued interest payable.....</p>		
		15,062
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported in the governmental funds. These amounts represent the net changes:</p>		
Workers' Compensation.....		(91,864)
Compensated Absences.....		(153,817)
Net OPEB Liability, Net.....		(1,386,302)
Net Pension Liability, Net.....		6,415,062
		6,415,062
Changes in Net Position of Governmental Activities.....	\$	6,634,560

*See notes to basic financial statements.*

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****A. General**

The accompanying basic financial statements of the Town of Hingham, Massachusetts (the Town) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described herein.

**B. Reporting Entity**

The Town was incorporated in 1635 under the statutes of the Commonwealth of Massachusetts (the "Commonwealth"). The Town is a municipal corporation governed by an elected Select Board.

For financial reporting purposes, the Town has included all funds, organizations, agencies, boards, commissions and institutions. The Town has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the Town (the primary government) and its component units. Three entities have been included as component units in the reporting entity, because of the significance of its operational and/or financial relationship.

*Component Unit Presented as a Fiduciary Fund* – The following component unit is presented as a Fiduciary Fund of the primary government due to the nature and significance of the relationship between the Town and the component unit.

**Fiduciary Fund Component Units**

- (1) The Hingham Contributory Retirement System ("System") was established to provide retirement benefits to Town employees, the Hingham Housing Authority employees, and the South Shore Regional Emergency Communication Center employees, and their beneficiaries. Board members of the Retirement System consist of two elected members, who are employees or retirees within the system and who are elected by the members-in-service and retirees, an ex-officio member who is a member by virtue of holding the office of Town Accountant, and an appointed member who is chosen by the Select Board. The remaining four members select the fifth member of the Board. The System is presented using the accrual basis of accounting and is reported in the pension and other postemployment benefits trust funds in the fiduciary fund financial statements.
- (2) The Hingham Other Postemployment Benefits Trust Fund ("Fund") was established to accumulate resources to provide post-retirement benefits other than pensions to retirees and their beneficiaries. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions of the Fund. Benefit provisions are negotiated between the Town and the unions representing Town employees and are renegotiated each bargaining period. The Fund is presented using the accrual basis of accounting and is reported in the pension and other postemployment benefits trust funds in the fiduciary fund financial statements.

*Discretely Presented Component Units* – Discretely presented component units are entities that are legally separate from the Town, but are financially accountable to the Town, or whose relationships with the Town are such that exclusion would cause the Town's financial statements to be misleading or incomplete. The Town has included the following Discretely Presented Component Units:

- (3) The Hingham Public Library is a private non-profit corporation that operates a library for the Town of Hingham residents. The Board of Trustees for the Hingham Public Library consists of the members of the corporation, the superintendent of schools of the Town, the treasurer of the Town, a member of the Select Board, and five residents of which three are appointed by the Select Board and two are appointed by the Town Moderator. The library is financially accountable to the Town as a result of fiscal dependency and a financial burden relationship since the Town provides substantial financial support each year. The Town has the authority to approve and modify the budget of the library.
- (4) The Lincoln Apartments, LLC, a Massachusetts limited liability company, is owned by its sole member, the Town of Hingham, through the Hingham Affordable Housing Trust. The Select Board appoints all trustees. The LLC operates affordable housing for Hingham residents at the Lincoln School Apartment building owned by the Town. The affordable housing program is subsidized by the U.S. Department of Housing and Urban Development (HUD). Under the terms of a 30 year lease agreement, Lincoln Apartments, LLC will pay the Town an annual base rent equal to the debt service on the bonds issued by the Town to finance the building plus "Cash Flow Rent" and "Additional Rent" as defined in the Agreement. The LLC is financially accountable to the Town through the appointment of the trustees, the Town is the sole owner of the LLC and the LLC is responsible to pay rent equal to the debt service on the bonds.

*Availability of Financial Information for Component Units, Lighting Plant Enterprise Fund, and Joint Venture*

The Hingham Contributory Retirement System did not issue a separately audited financial statement. The System issues a publicly available unaudited financial report in accordance with guidelines established by the Commonwealth of Massachusetts' (Commonwealth) Public Employee Retirement Administration Commission (PERAC). That report may be obtained by writing to the Hingham Retirement Board, 210 Central Street, Hingham, MA 02043.

The Hingham Other Postemployment Benefits Trust Fund does not issue a publicly available financial report that includes financial statements and related notes. The Fund is included as a pension and other postemployment benefits trust fund in the fiduciary fund financial statements. Additional note disclosures can be found at Note 17.

The Hingham Public Library issues an unaudited publicly available financial report that includes financial statements and related notes. Further information about the Public Library can be obtained from the Library's administrative offices, at 66 Leavitt Street, Hingham, MA 02043.

The Lincoln Apartments, LLC issues a publicly available financial report that includes financial statements and supplementary information. Copies of these financial statements may be obtained by writing to the Board of Managers, C/O the Hingham Affordable Housing Trust, 210 Central Street, Hingham, MA 02043.

The Hingham Municipal Lighting Plant issues a publicly available financial report that includes financial statements and required supplemental information. Copies of these financial statements may be obtained by writing to the Hingham Municipal Lighting Plant, 31 Bare Cove Park Drive, Hingham, MA 02043-2685.

Joint Venture - The Town has entered into a joint venture for the South Shore Regional Emergency Communications Center (SSRECC) along with the Towns of Cohasset, Hull, and Norwell to pool resources and share costs, risks, and rewards of operating a regional 911 call center. The Center became operational as of January 1, 2012, and the Town's 2022 assessment totaled \$928,104. Since the assets of the SSRECC were acquired with State grants there is currently no significant equity interest accruing to the member communities. The annual assessments are based on and equal to the operating costs of the Center. The SSRECC issues a publicly available financial report that includes its financial statements. Copies of these financial statements may be obtained by writing to the SSRECC's Executive Director, 210 Central Street, Hingham, MA 02043.

**Implementation of New Accounting Principles**

In June 2017, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 87, *Leases*. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The Town adopted the requirements of the guidance effective July 1, 2021, and has applied the provisions of this standard to the beginning of the period.

The Town has also reclassified certain major governmental funds to nonmajor governmental funds. The effect of the change in reclassification is as follows:

	Governmental Activities	Nonmajor Governmental Funds
	<u>                    </u>	<u>                    </u>
Net Position/Fund Balance, June 30, 2021, as previously reported.....	\$ 61,615,927	\$ 3,791,874
Cumulative Affects of Restatements:		
Reclassification of Recreation Drive Nonmajor Fund.....	-	(3,413,857)
Reclassification of Sewer Maintenance Nonmajor Fund.....	<u>-</u>	<u>(686,594)</u>
Net Position/Fund Balance, June 30, 2022, as restated.....	<u>\$ 61,615,927</u>	<u>\$ (308,577)</u>

**C. Government-Wide and Fund Financial Statements**

Government-Wide Financial Statements

The government-wide financial statements (i.e., statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are supported primarily by user fees and charges.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and displayed in a single column.

Fiduciary funds are reported by fund type.

**D. Measurement Focus, Basis of Accounting and Basis of Presentation**

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a particular function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include the following:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.
- Grants and contributions that are restricted to meeting the operational requirements of a particular function or segment.
- Grants and contributions that are restricted to meeting the capital requirements of a particular function or segment.

Taxes and other items not identifiable as program revenues are reported as general revenues.

Except for charges between the general fund and enterprise funds, the effect of interfund activity has been removed from the government-wide financial statements. However, the effect of interfund services provided and used between functions is not eliminated as the elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

### Fund Financial Statements

**Governmental funds** financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences, claims and judgments which are recognized when the amounts have matured or are due and payable.

Real estate and personal property tax revenues are considered available if they are collected within 60 days after year-end. Investment income is susceptible to accrual. Other receipts and tax revenues become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the "susceptible to accrual criteria" is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The following major governmental funds are reported:

The *general fund* is the primary operating fund. It is used to account for all financial resources, except those that are required to be accounted for in another fund.

The *community preservation* fund is a special revenue fund used to account for all activity related to community preservation. The fund is financed primarily by real estate tax surcharges and intergovernmental revenues.

The nonmajor governmental funds consist of other special revenue, capital project and permanent funds that are aggregated and presented in the *nonmajor governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

*Special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than permanent funds or capital projects.

*Capital projects funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets of the governmental funds. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

*Permanent funds* are used to account for and report financial resources that are restricted to the extent that only earnings, not principal, may be used for purposes that support the governmental programs.

**Proprietary funds** financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The following major proprietary funds are reported:

The *South Shore Country Club* manages and operates a recreational complex which primarily includes a municipal golf course in the Town of Hingham.

The *Hingham Municipal Lighting Plant* is used to account for the operations of the municipal lighting plant's activities.

The *Weir River Water System* is used to account for the operations of the Weir River Water System; the Town-owned water distribution network serving the Town of Hingham, Town of Hull, and Town of Cohasset.

**Fiduciary funds** financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the governmental programs.

The following fiduciary fund types are reported:

The *pension and other postemployment benefits trust funds* are used to account for the activities of the Hingham Contributory Retirement System, which accumulates resources to provide pension benefits to eligible retirees and their beneficiaries. The funds are also used to accumulate resources to provide funding for future OPEB liabilities.

The *private-purpose trust fund* is used to account for trust arrangements that exclusively benefit individuals, private organizations, or other governments. Some of these trust funds have donor restrictions and trustee policies that do not allow the endowment portion and any unrealized appreciation to be spent. The donor restrictions and trustee policies only allows the trustees to approve spending of the realized investment earnings. The Town's educational scholarships are accounted for in this fund.

The *custodial fund* is used to account for assets held in a purely custodial capacity. The Town's custodial fund consists of fees collected on behalf of other governments.

### *E. Cash and Investments*

#### Government-Wide and Fund Financial Statements

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition.

Investments are carried at fair value, net asset value (NAV) or amortized cost, as further described in Note 4.

### *F. Accounts Receivable*

#### Government-Wide and Fund Financial Statements

The recognition of revenue related to accounts receivable reported in the government-wide financial statements and the proprietary funds and fiduciary funds financial statements are reported under the accrual basis of accounting. The recognition of revenue related to accounts receivable reported in the governmental funds financial statements are reported under the modified accrual basis of accounting.

### **Real Estate Taxes, Personal Property Taxes and Tax Liens**

Real estate and personal property taxes are levied and based on values assessed on January 1st of every year. Assessed values are established by the Board of Assessor's for 100% of the estimated fair market value. Taxes are due on August 1st, November 1st, February 1st and May 1st and are subject to penalties and interest if they are not paid by the respective due date. Real estate and personal property taxes levied are recorded as receivables in the year of the levy.

Real estate tax liens are processed annually after the close of the valuation year on delinquent properties and are recorded as receivables in the year they are processed.

A statewide limitation statute known as "Proposition 2 ½" limits the annual property tax levy increases to an amount equal to 2 ½% of the value of all taxable property in the Town, plus taxes levied on property newly added to the tax rolls. Certain Proposition 2 ½ taxing limitations can be overridden by a Town wide referendum vote.

Although the Hingham Municipal Lighting Plant is exempt from property taxes, they pay amounts in lieu of taxes to the Town of Hingham. The Weir River Water System's property taxes paid to the Town of Hingham are reported as "Transfers Out".

### **Motor Vehicle Excise Taxes**

Motor vehicle excise taxes are assessed annually for each vehicle registered and are recorded as receivables in the year of the levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair values of those vehicles. The tax calculation is the fair value of the vehicle multiplied by \$25 per \$1,000 of value.

### **User Charges**

User charges and liens consist primarily of amounts due from residents for the providing of services by various departments including the Hingham Municipal Lighting Plant and Weir River Water System.

### **Departmental and Other**

Departmental and other receivables consist primarily of police and fire details and are recorded as receivables in the year in which the service is performed.

### Special Assessments

Special Assessments consist of apportioned and unapportioned sewer betterments assessed to homeowners whose properties were improved through Town-run construction projects.

### Intergovernmental

Various Federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, receivables are recorded as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, receivables are recorded when the qualifying expenditures are incurred and all other grant requirements are met.

### Leases

The Town's leases certain operating and office facilities for various terms under long-term, non-cancellable lease agreements.

#### *G. Allowance for Uncollectible Amounts*

The allowance for uncollectible amounts is estimated based on historical trends and specific account analysis for the following accounts receivable:

- Personal property taxes
- Motor vehicle and other excise taxes
- Departmental and other (includes allowance for ambulance accounts receivable)
- User Charges

The following types of accounts receivable are secured via the lien process and are considered 100% collectible. Accordingly, an allowance for uncollectible amounts is not reported.

- Real estate taxes and tax liens
- Special assessments

Intergovernmental and lease receivables are considered 100% collectible.

#### *H. Inventories*

##### Government-Wide and Fund Financial Statements

Inventories are recorded as expenditures at the time of purchase. Such inventories are not material in total to the government-wide and fund financial statements, and therefore are not reported.

Materials and supplies held by the Municipal Lighting Plant are generally recorded at cost, using the weighted average method.

**I. Capital Assets**

Government-Wide and Proprietary Funds Financial Statements

Capital assets, which include land, construction in process, land improvements, buildings, building improvements, plant in service, machinery and equipment, infrastructure (e.g., roads, street lights, sewer mains, and similar items), and network are reported in the applicable governmental or business-type activity column of the government-wide financial statements. Capital assets are recorded at historical cost or at estimated historical cost, when actual historical cost could not be determined. Donated capital assets; donated works of art, historical treasures and similar assets; and capital assets received in service concession arrangements are recorded at acquisition value. Except for the capital assets of the governmental activities column in the government-wide financial statements, construction period interest is capitalized on constructed capital assets.

For the Town of Hingham capital assets are defined as all purchases and construction costs in excess of \$5,000 which are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than three years.

Capital assets (excluding land and construction in progress) are depreciated over the estimated useful lives using the straight-line method. The estimated useful lives of capital assets being depreciated are as follows:

<u>Capital Asset Type</u>	<u>Estimated Useful Life (in years)</u>
Land improvements.....	10-30
Buildings.....	35
Building improvements.....	10-20
Plant in service.....	30-40
Machinery and equipment.....	3-20
Infrastructure.....	50

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

The statutory provision for depreciation of utility plant is computed on the straight-line method at three percent of cost of plant in service at the beginning of the year, exclusive of land and land rights. Therefore, no depreciation is taken in the year of plant additions. Massachusetts’ law stipulates that the Hingham Municipal Lighting Plant may change from the statutory depreciation rate only with the approval of the Department of Telecommunications & Energy (DTE). The Hingham Municipal Lighting Plant has consistently used a rate of 3.0%, which approximates GAAP. The Hingham Municipal Lighting Plant charges maintenance to expense when incurred. Replacements and betterments are charged to the utility plant.

Governmental Funds Financial Statements

Capital asset costs are recorded as expenditures in the acquiring fund in the year of the purchase.

## *J. Deferred Outflows/Inflows of Resources*

### Government-Wide Financial Statements (Net Position)

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources expense/expenditure) until then. The Town has reported deferred outflows of resources related to pensions and OPEB in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has recorded advance tax collections, a rate stabilization reserve, and future lease receipts as deferred inflows of resources in the government-wide statement of net position. The Town has also reported deferred inflows of resources related to pensions and OPEB in this category.

### Governmental Fund Financial Statements

In addition to liabilities, the governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents amounts that have been recorded in the governmental fund financial statements but the revenue is not available and so will not be recognized as an inflow of resources (revenue) until it becomes available. The Town has recorded unavailable revenue, advance tax collections, and future lease receipts as deferred inflows of resources in the governmental funds balance sheet.

## *K. Interfund Receivables and Payables*

During the course of its operations, transactions occur between and within individual funds that may result in amounts owed between funds.

### Government-Wide Financial Statements

Transactions of a buyer/seller nature between and within governmental funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of net position as "internal balances".

### Fund Financial Statements

Transactions of a buyer/seller nature between and within funds are not eliminated from the individual fund statements. Receivables and payables resulting from these transactions are classified as "Due from/to other funds" on the balance sheet.

## *L. Interfund Transfers*

During the course of its operations, resources are permanently reallocated between and within funds. These transactions are reported as transfers in and transfers out.

### Government-Wide Financial Statements

Transfers between and within governmental funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers, net".

### Fund Financial Statements

Transfers between and within funds are not eliminated from the individual fund statements and are reported as transfers in and transfers out.

#### *M. Unavailable Revenue*

Unavailable revenue at the governmental fund financial statement level represents billed receivables that do not meet the available criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting, i.e. receivables that are not considered to be available to liquidate liabilities of the current period. Unavailable revenue is recognized as revenue in the conversion to the government-wide (full accrual) financial statements.

#### *N. Unearned Revenue*

Unearned revenue is presented in the governmental-wide statement of net position and governmental funds balance sheet and represents federal grants received by the Town in advance of meeting eligibility requirements for revenue recognition.

#### *O. Net Position and Fund Balances*

### Government-Wide and Proprietary Funds Financial Statements (Net Position)

Net position represents the residual difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources.

Net position reported as “net investment in capital assets” includes capital assets, net of accumulated depreciation, less the principal balance of outstanding debt used to acquire capital assets. Unspent proceeds of capital related debt are not considered to be capital assets. Outstanding debt related to future reimbursements from the state’s school building program is not considered to be capital related debt.

Net position is reported as restricted when amounts that are not available for appropriation or are legally restricted by outside parties for a specific future use.

Net position has been “restricted” for the following:

“Depreciation” – represents amounts restricted in the Electric department for the statutory reserve for funded depreciation.

“Permanent funds - expendable” represents the amount of realized and unrealized investment earnings of donor restricted funds. The restrictions and trustee policies only allow the trustees to approve spending of the realized investment earnings.

“Permanent funds - nonexpendable” represents the endowment portion of donor restricted funds.

“Grants and gifts” represents amounts held for school grants, and other grants and gift funds.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town’s policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Governmental Funds Financial Statements (Fund Balances)

Governmental fund balances are classified as nonspendable, restricted, committed, assigned, or unassigned based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The governmental fund balance classifications are as follows:

“Nonspendable” fund balance includes amounts that cannot be spent because they are either not in spendable form or they are legally or contractually required to be maintained intact.

“Restricted” fund balance includes amounts subject to constraints placed on the use of resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments’ or that are imposed by law through constitutional provisions or enabling legislation.

“Committed” fund balance includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority. Town Meeting is the highest level of decision making authority that can, by Town Meeting vote of a Special Article, commit funds for a specific purpose. Once voted, the limitation imposed of the Special Article remains in place until the funds are used for their intended purpose or a vote is taken to rescind the commitment.

“Assigned” fund balance includes amounts that are constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed. The Town’s by-laws authorize the Town Accountant to assign portions of fund balance. Assignments generally only exist temporarily. Additional action does not have to be taken for the removal of an assignment.

“Unassigned” fund balance includes the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The Town’s spending policy is to spend restricted fund balance first, followed by committed, assigned and unassigned fund balance. Most governmental funds are designated for one purpose at the time of their creation.

Therefore, any expenditure from the fund will be allocated to the applicable fund balance classifications in the order of the aforementioned spending policy. The general fund and certain other funds may have more than one purpose.

***P. Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of both the Hingham Contributory Retirement System and the Massachusetts Teachers Retirement System and additions to/deductions from the System’s fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, net asset value (NAV), or amortized cost as further described in Note 3.

**Q. Other Postemployment Benefits (OPEB)**

In addition to providing pension benefits, and as more fully described in Note 16, the Town provides health, dental and life insurance coverage for current and future retirees and their spouses.

**R. Long-term Debt**Government-Wide and Proprietary Fund Financial Statements

Long-term debt is reported as liabilities in the government-wide and proprietary fund statement of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Governmental Fund Financial Statements

The face amount of governmental funds long-term debt is reported as other financing sources. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds received, are reported as general government expenditures.

**S. Compensated Absences**

Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements, state laws and executive policies.

Government-Wide and Proprietary Fund Financial Statements

Vested or accumulated vacation and sick leave are reported as liabilities and expensed as incurred.

Governmental Fund Financial Statements

Compensated absences are reported in the governmental funds only if they have matured, i.e. unused reimbursable leave still outstanding following an employee's resignation or retirement. Vested or accumulated vacation and sick leave, which will be liquidated with expendable available financial resources, are reported as expenditures and fund liabilities upon maturity of the liability.

**T. Investment Income**

Excluding the permanent funds, investment income derived from major and nonmajor governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Law (MGL). Investment income from proprietary funds is maintained in those funds.

**U. Use of Estimates**Government-Wide and Fund Financial Statements

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the year. Actual results could vary from estimates that were used.

## V. Total Column

### Government-Wide Financial Statements

The total column presented on the government-wide financial statements represents consolidated financial information.

### Fund Financial Statements

The total column on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

## NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### A. Budgetary Information

Municipal Law requires the adoption of a balanced budget that is approved at the Annual Town Meeting. The Town has an advisory committee that submits reports on proposed appropriations at Town Meetings. The appropriated budget is prepared by fund, function and department. Transfers of appropriations among departments require the approval of Town Meeting.

The majority of appropriations are non-continuing which lapse at the end of each year. Others are continuing appropriations for which the governing body has authorized that an unspent balance from a prior year be carried forward and made available for spending in the current year. These carry forwards are included as part of the subsequent year's original budget.

Generally, expenditures may not exceed the legal level of spending (salaries, expenses and capital) authorized for an appropriation account. However, the payment of debt service is statutorily required, regardless of whether such amounts are appropriated. Additionally, expenditures for disasters, natural or otherwise, and final judgments may exceed the level of spending authorized by two-thirds vote of the Select Board and written approval from the Massachusetts Department of Revenue. An annual budget is adopted for the general fund in conformity with the guidelines described above.

The original 2022 general fund and community preservation fund budgets consisted of \$123,316,270 and \$1,581,413, respectively, in appropriations and other amounts to be raised, including \$3,132,847 in the general fund for amounts carried over from previous years. During 2022, the Town authorized supplemental appropriations for the general fund totaling \$1,262,211, for a total budget of \$124,578,481.

The Accounting Office has the responsibility to ensure that budgetary control is maintained. Budgetary control is exercised through the accounting system.

**B. Fund Deficits**

At June 30, 2022, the following governmental fund deficits exist:

Fund	Amount	Funding Source
<b>Major Governmental Funds:</b>		
CPA Fund.....	\$ 940,329	Issuance of Long-Term Debt
<b>Nonmajor Governmental Funds:</b>		
Other capital projects.....	7,868,473	Issuance of Long-Term Debt
Recreation Drive.....	3,413,857	Issuance of Long-Term Debt
Town Grants.....	2,624,810	State and Federal Grants
Foster School.....	1,743,084	Issuance of Long-Term Debt
High School Fields.....	420,303	Issuance of Long-Term Debt
Middle School Building Project.....	377,287	Issuance of Long-Term Debt
Sewer Capital.....	254,125	Issuance of Long-Term Debt
New Elementary School.....	244,738	Issuance of Long-Term Debt
Plymouth River School Improvements.....	236,907	Issuance of Long-Term Debt
Sewer Maintenance.....	103,279	Available Funds
South Shore Regional Communications Center.....	66,785	Available Funds
Total Nonmajor Governmental Funds.....	<u>17,353,648</u>	
Total Governmental Funds.....	<u>\$ 18,293,977</u>	

**NOTE 3 - CASH AND INVESTMENTS**

*General - Town and Pension Trust*

A cash and investment pool is maintained that is available for use by all funds. Each fund type’s portion of this pool is displayed on the balance sheet as “Cash and Cash equivalents.” The deposits and investments of the trust funds are held separately from those of other funds.

Statutes authorize the investment in obligations of the U. S. Treasury, agencies, and instrumentalities, certificates of deposit, repurchase agreements, money market accounts, bank deposits and the State Treasurer’s Investment Pool (the Pool). The Treasurer may also invest trust funds in securities, other than mortgages or collateral loans, which are legal for the investment of funds of savings banks under the laws of the Commonwealth. The Town Treasurer is responsible for adhering to these statutes, and at June 30, 2022 the Town is in compliance with these requirements.

The Pool meets the criteria of an external investment pool. The Pool is administered by the Massachusetts Municipal Depository Trust (MMDT), which was established by the Treasurer of the Commonwealth who serves as Trustee. The fair value of the position in the Pool is the same as the value of the Pool shares.

The System participates in the Pension Reserve Investment Trust (PRIT), which meets the criteria of an external investment pool. PRIT is administered by the Pension Reserves Investment Management Board, which was established by the Treasurer of the Commonwealth of Massachusetts who serves as Trustee. The fair value of the position in the PRIT is the same as the value of the PRIT shares.

Town policy provides that up to 100% of available cash may be invested in the State Treasurer’s pooled fund. Investment in a single institution may not exceed 10% of the institution’s capital and surplus position as of the most recent quarterly data available to the Town Treasurer. Investment in a single institution (other than MMDT) may not exceed 25% of the total cash balance at any time. The Town treasurer shall subscribe to information reports from a recognized bank rating company. Direct investment in an institution shall be restricted to those ranked in the upper half of rating categories utilized by the Town unless the Town Treasurer obtains additional adequate security for the investment or otherwise determines and documents in writing that the rating provided does not properly reflect the strength of the institution. Maintenance of disbursement or other types of accounts at an institution below a mid-range rating shall be limited, to the maximum extent possible, to a balance below \$100,000. When the rating falls to a “warning stage” or when more than one-half of the institution’s capital and surplus has been lost in a 12-month period, any accounts shall be closed forthwith.

The following table reconciles total Town cash and investments as reported in the financial statements to presentation of these same amounts in the Notes to Basic Financial Statements:

	Primary Government		Fiduciary Funds					Totals
			Pension and Other Postemployment Benefits Trust Funds			Other Fiduciary Funds		
	Governmental Activities	Business-Type Activities	Other Postemployment Benefits Trust Fund	Pension Trust (As of 12/31/21)	Subtotal Pension and Other Postemployment Benefits Trust Funds	Private Purpose Trust Funds	Custodial Fund	
Cash and Cash Equivalents.....	\$ 62,192,022	\$ 45,084,360	\$ 2,211,400	\$ 645,836	\$ 2,857,236	\$ 34,200	\$ 17,446	\$ 110,185,264
Investments.....	6,529,250	2,834,420	21,422,503	173,762,268	195,184,771	5,867,057	-	210,415,498
<b>Total.....</b>	<b>\$ 68,721,272</b>	<b>\$ 47,918,780</b>	<b>\$ 23,633,903</b>	<b>\$ 174,408,104</b>	<b>\$ 198,042,007</b>	<b>\$ 5,901,257</b>	<b>\$ 17,446</b>	<b>\$ 320,600,762</b>
Carrying value of cash:								
Primary Government.....	62,293,089							
Pension Trust.....	645,836							
Investments Considered Cash & Cash Equivalents:								
Money Market Mutual Funds.....	323,177							
External Investment Pool MMDT.....	46,923,162							
Cash and Cash Equivalents.....	110,185,264							
U.S. Treasury Securities.....	7,924,787							
Equity Mutual Funds.....	3,878,148							
Fixed Income Mutual Funds.....	2,032,746							
Equity Securities.....	534,615							
PRIT Investments.....	195,184,771							
Certificates of Deposit.....	705,926							
Corporate Bonds.....	154,505							
Investments.....	210,415,498							
Total Cash, Cash Equivalents and Investments.....	\$ 320,600,762							

**Deposits and Investments - Town (Excluding Pension Trust)**

Deposits - Custodial Credit Risk

In the case of deposits, this is the risk that in the event of a bank failure, the Town’s deposits may not be returned to it. The Town policy for mitigating custodial credit risk is that the Town will not have on deposit amounts exceeding 10% of capital and surplus unless those deposits carry full FDIC insurance or are collateralized. In addition, it is the Town's policy that at no time shall any single bank or bank holding company hold an excess of 25% of the cash balance under the control of the Treasurer at any time.

At the respective year-ends of the Town and the Municipal Light Plant, the carrying amount (book value) of deposits totaled \$62,363,263 and the bank balances (as of June 30, 2022 for the Town and as of December 31, 2021 for the Municipal Light Plant) totaled \$40,986,939. Of the bank balance, \$1,750,000 was covered by Federal Depository Insurance, \$11,935,267 was covered by the Depositors Insurance Fund, \$4,845,366 was collateralized, and \$22,456,306 was exposed to custodial credit risk because it was uninsured and uncollateralized. The uncollateralized balances are deposits in three separate well-known banks offering municipal services that are monitored by the Town Treasurer as described above. These deposits are not in violation of Town policy.

### Investments Summary

The Town's investments at June 30, 2022 are presented as follows:

Investment Type	Total Amount	Investment Maturities (in Years)		
		Less Than 1	1 - 5	5-10
<u>Debt Securities:</u>				
U.S. Treasury Securities.....	\$ 7,924,787	\$ 7,673,943	\$ 161,916	\$ 88,928
Money Market Mutual Funds.....	323,177	323,177	-	-
Fixed Income Mutual Funds.....	2,032,746	2,032,746	-	-
Certificates of Deposit.....	705,926	-	705,926	-
Corporate Bonds.....	154,505	-	111,810	42,695
External Investment Pool MMDT.....	46,923,162	46,923,162	-	-
Total Debt Securities.....	58,064,303	\$ 56,953,028	\$ 979,652	\$ 131,623
<u>Other Investments:</u>				
Equity Securities.....	534,615			
Equity Mutual Funds.....	3,878,148			
PRIT Investments -OPEB Trust.....	21,422,503			
Total Investments - Town	\$ 83,899,569			

### Investments - Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Town's investment policy is to follow state statutes, which limits investment maturities as a means of managing its exposure to fair value losses arising from increasing rates.

### Investments - Custodial Credit Risk

For an investment, this is the risk that, in the event of a failure by the counterparty, the Town will not be able to recover the value of its investments or collateral security that are in the possession of an outside party.

As of June 30, 2022, the Town's investments were not exposed to custodial credit risk.

The Town will minimize Custodial Credit Risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities listed in the Statutory Authority section of the Town's Investment Policy; and obtaining necessary documentation (e.g. broker certification forms and documentation of perfected security interests in pledged collateral) from the financial institutions, broker/dealers, intermediaries and advisors, as applicable, with which the Town will do business in accordance with this Investment Policy. Some of this risk will be managed requiring that the above referenced financial institutions, broker/dealers, intermediaries and advisors have Securities Investor Protection Corporation (SIPC) and excess SIPC Coverage.

### Investments - Credit Risk of Debt Securities

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to meet its obligations. The Treasurer's policy for credit risk requires all financial institutions wishing to do business with the Town to read the Town's Investment Policy and agree to comply with it. This policy requires minimum standards of credit worthiness as well as guidance for the types of investment allowed.

The Town has disclosed the credit ratings of its investments in accordance with GASB Statement No. 40. At June 30, 2022 the Town's investments in U.S. Treasury Securities were rated AAA. At June 30, 2022, the Town's investments in Corporate Bonds of \$25,159 were rated AA-, \$24,195 were rated A, \$44,191 were rated A-, and \$60,960 were rated BBB+. The Town's investments in money market mutual funds, fixed income mutual funds, external investment pools, and certificates of deposit were unrated at June 30, 2022.

### Investments - Concentration of Credit Risk

The Town has adopted a formal policy to mitigate concentration of credit risk by mandating that the town may not at any one time have on deposit in a bank or trust company an amount exceeding 10% of the capital and surplus of that institution unless the deposits are fully collateralized.

The Town does not have any investments in any one issuer that represents 5% or more of its total investments requiring disclosure in these financial statements.

### Investments - Fair Value Measurements

The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town's mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town chooses a tabular format for disclosing the levels within the fair value hierarchy.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of June 30, 2022:

Investment Type	Total Amount	Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<b>Investments Measured by Fair Value Level</b>				
U.S. Treasury Securities.....	\$ 7,924,787	\$ 7,924,787	\$ -	\$ -
Equity Securities.....	534,615	534,615	-	-
Equity Mutual Funds.....	3,878,148	3,878,148	-	-
Corporate Bonds.....	154,505	-	154,505	-
Fixed Income Mutual Funds.....	2,032,746	-	2,032,746	-
Total Investments at Fair Value.....	14,524,801	\$ 12,337,550	\$ 2,187,251	\$ -
<b>Investments Measured at Amortized Cost:</b>				
Money Market Mutual Funds.....	323,177			
Certificates of Deposit.....	705,926			
External Investment Pool MMDT.....	46,923,162			
Total Investments Measured at Amortized Cost.....	47,952,265			
Total Investments Measured by Fair Value Level.....	62,477,066			
<b>Investments Measured at Net Asset Value (NAV):</b>				
PRIT Investments - OPEB Trust.....	21,422,503			
Total Investments - Town	\$ 83,899,569			

U.S. Treasury securities, equity securities, and equity mutual funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fixed income mutual funds classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

PRIT Investments are valued using the net asset value method. This investment pool was established by the Treasurer of the Commonwealth of Massachusetts, who serves as Trustee. PRIT is administered by the Pension Reserves Investment Management Board (PRIM). The fair values of the positions in each investment Pool are the same as the value of each Pool's shares. The Town does not have the ability to control any of the investment decisions relative to its funds in PRIT.

Money market mutual funds, certificates of deposit, and MMDT investments are valued at amortized cost. Under the amortized cost method, an investment is valued initially at its cost and adjusted for the amount of interest income accrued each day over the term of the investment to account for any difference between the initial cost and the amount payable at its maturity. If amortized cost is determined not to approximate fair value, the value of the portfolio securities will be determined under procedures established by the Advisor.

#### ***Deposits and Investments - Pension Trust Fund - Hingham Contributory Retirement System (System)***

##### Deposits - Custodial Credit Risk

At December 31, 2021 the carrying amount (book value) of the Retirement System's deposits totaled \$645,836 and the bank balance totaled \$729,738. The bank balance was fully insured by Federal Depository Insurance.

Investments - Custodial Credit Risk

At December 31, 2021, the System's \$173,762,268 investment in PRIT is not subject to custodial credit risk exposure because it is not evidenced by securities that exist in physical or book-entry form.

Investments - Concentration of Credit Risk

As of December 31, 2021, the Retirement System had investments in PRIT's general allocation fund; which are not subject to concentration of credit risk.

Investments - Fair Value Measurements

The retiree pension defined benefit plan holds significant amounts of investments that are measured at fair value on a recurring basis. Because investing is a key part of the plan's activities, the plan shows greater disaggregation in its disclosures.

The System categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

PRIT Investments are valued using the net asset value (NAV) method. This investment pool was established by the Treasurer of the Commonwealth of Massachusetts, who serves as Trustee. PRIT is administered by the Pension Reserves Investment Management Board (PRIM). The fair values of the positions in each investment Pool are the same as the value of each Pool's shares. The System does not have the ability to control any of the investment decisions relative to its funds in PRIT.

**NOTE 4 - ACCOUNTS RECEIVABLE**

At June 30, 2022, receivables for the individual major and nonmajor governmental funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	Gross Amount	Allowance for Uncollectibles	Net Amount
<u>Receivables:</u>			
Real Estate and Personal Property Taxes.....	\$ 1,505,903	\$ -	\$ 1,505,903
Tax and Utility Liens.....	890,694	-	890,694
Motor Vehicle and Other Excise Taxes.....	591,746	-	591,746
Community Preservation Taxes.....	9,040	-	9,040
User charges.....	2,566,091	-	2,566,091

**NOTE 6 - NET INVESTMENT IN CAPITAL ASSETS**

The Town’s net investment in capital assets at June 30, 2022 is summarized as follows:

*Governmental Activities*

Capital Assets, Net of Accumulated Depreciation.....	\$	164,000,308
Less Outstanding Bonds and Notes Payable.....		(56,484,165)
Less Outstanding Financed Purchase Obligations.....		(1,609,500)
Add Unspent Proceeds of Capital Related Debt.....		1,596,887
Net Investment in Capital Assets.....	\$	<u>107,503,530</u>

*Business-Type Activities*

Capital Assets, Net of Accumulated Depreciation.....	\$	148,628,458
Less Outstanding Bonds and Notes Payable Related to Asset Aquisition.....		(122,647,636)
Add Unspent Proceeds of Capital Related Debt.....		8,680,844
Net Investment in Capital Assets.....	\$	<u>34,661,666</u>

**NOTE 7 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

Interfund receivables and payables between funds at June 30, 2022, as summarized as follows:

Receivable Fund	Payable Fund	Amount
General Fund.....	Town Grants.....	\$ 3,772,548 (2)
General Fund.....	Foster School.....	674,283 (1)
General Fund.....	Middle School Building.....	626,887 (1)
General Fund.....	Recreation Drive.....	408,857 (1)
General Fund.....	Sewer Capital.....	346,083 (1)
General Fund.....	Other Capital.....	342,609 (1)
General Fund.....	South Shore Regional Communications Center.....	270,719 (1)
General Fund.....	New Elementary School Project.....	244,738 (1)
General Fund.....	Plymouth River School.....	236,907 (1)
General Fund.....	Other Town.....	213,821 (1)
General Fund.....	Sewer Maintenance.....	36,077 (1)
General Fund.....	School Federal Grants.....	30,371 (2)
Town Other.....	General Fund.....	1,520 (1)
		<u>\$ 7,205,420</u>

- (1) Represents advances between funds to meet temporary cash flow needs.
- (2) Represents advance funding pending receipt of grant reimbursements.

Interfund transfers for the fiscal year ended June 30, 2022 are summarized as follows:

Transfers Out:	Transfers In:		
	General Fund	Nonmajor Governmental Funds	Total
General Fund.....	\$ -	\$ 2,800,000	\$ 2,800,000 (1)
Community Preservation Fund.....	-	700,000	700,000 (2)
Nonmajor Governmental Funds.....	41,087	-	41,087 (3)
Hingham Municipal Light Plant Enterprise Fund.....	480,272	-	480,272 (4)
Weir River Water System Enterprise Fund.....	730,221	-	730,221 (5)
	<u>\$ 1,251,580</u>	<u>\$ 3,500,000</u>	<u>\$ 4,751,580</u>

- (1) Represents budgeted transfers to the Public Safety Building (\$1,600,000), Lincoln School Apartment Windows (\$1,000,000), and Rotary (\$200,000) capital projects funds.
- (2) Represents budgeted transfer from the Community Preservation Fund to the Hingham Affordable Housing Trust Fund (\$700,000) for affordable housing projects.
- (3) Represents budgeted transfers from the Waterways Fund to the general fund (\$40,750) for operating subsidy, and transfers from special revenue funds to the general fund (\$337).
- (4) Represents transfers in from the Hingham Municipal Light Plant enterprise fund (in lieu of taxes).
- (5) Represents transfer from the Weir River Water System to the general fund for real estate and property taxes.

**NOTE 8 - LEASES (LESSOR)**

The Town leases certain office facilities to organizations for various terms under long-term, non-cancelable lease agreements. The leases expire at various dates through 2032. The business-type activities facilities lease provides for a renewal option of five years at the end of the lease term in 2026.

The business-type activities lease requires variable payments based on future performance of the lessee and are not included in the measurement of the lease liability. Those variable payments are recognized as inflows of resources in the periods in which the obligation for those payments becomes due to the Town. During the year ended June 30, 2022, the Town received variable payments as required by lease agreements totaling approximately \$72,000.

Total future minimum lease receipts to be received are as follows:

	Governmental Activities		Business-Type Activities		Total
	Principal	Interest	Principal	Interest	
2023	\$ 338,743	\$ 76,756	\$ 87,863	\$ 8,137	\$ 511,499
2024	337,828	63,225	89,789	6,211	497,053
2025	335,850	49,746	94,776	4,224	484,596
2026	337,224	36,288	99,906	2,094	475,512
2027	336,737	22,807	50,768	229	410,541
2028-2032	375,780	14,388	-	-	390,168
2033 and thereafter	10,891	219	-	-	11,110
Total minimum lease receipts	<u>\$ 2,073,053</u>	<u>\$ 263,429</u>	<u>\$ 423,102</u>	<u>\$ 20,895</u>	<u>\$ 2,780,479</u>

**NOTE 9 - SHORT-TERM FINANCING**

Short-term debt may be authorized and issued to fund the following:

- Current operating costs prior to the collection of revenues through issuance of revenue or tax anticipation notes (RANS or TANS).
- Capital project costs and other approved expenditures incurred prior to obtaining permanent financing through issuance of bond anticipation notes (BANS) or grant anticipation notes (GANS).

Short-term loans are general obligations and carry maturity dates that are limited by statute. Interest expenditures and expenses for short-term borrowings are accounted for in the general fund and enterprise fund, respectively.

Details related to the short-term debt activity for the fiscal year ended June 30, 2022, is as follows:

*Notes Payable - Governmental Funds*

**NOTE 10 - LONG-TERM OBLIGATIONS**

The following represents a summary of changes that occurred in long-term obligations during the fiscal year ended June 30, 2022:

	Balance June 30, 2021	Increases	Decreases	Balance June 30, 2022	Current Portion
<b>Governmental Activities:</b>					
Bonds and Notes Payable.....	\$ 42,002,433	\$ -	\$ (4,156,776)	\$ 37,845,657	\$ 4,187,216
Unamortized Premium.....	2,871,466	-	(476,889)	2,394,577	431,536
Financed Purchases.....	769,530	1,865,100	(1,025,130)	1,609,500	223,732
Bonds and Notes Payable, Gross.....	45,643,429	1,865,100	(5,658,795)	41,849,734	4,842,484
Workers' Compensation Claims.....	271,676	733,038	(641,174)	363,540	185,405
Compensated Absences.....	1,944,380	217,752	(63,935)	2,098,197	1,573,648
Total.....	<u>\$ 47,859,485</u>	<u>\$ 2,815,890</u>	<u>\$ (6,363,904)</u>	<u>\$ 44,311,471</u>	<u>\$ 6,601,537</u>
<b>Business-Type Activities:</b>					
Bonds and Notes Payable.....	\$ 111,180,000	\$ -	\$ (2,185,000)	\$ 108,995,000	\$ 2,290,000
Unamortized Premium.....	8,807,337	-	(303,701)	8,503,636	303,701
Bonds and Notes Payable, Gross.....	119,987,337	-	(2,488,701)	117,498,636	2,593,701
Customer Deposits.....	1,772,803	108,221	-	1,881,024	-
Compensated Absences.....	39,304	14,459	-	53,763	53,763
Total.....	<u>\$ 121,799,444</u>	<u>\$ 122,680</u>	<u>\$ (2,488,701)</u>	<u>\$ 119,433,423</u>	<u>\$ 2,647,464</u>

Governmental activities long-term liabilities are generally liquidated by the general fund. Business-type activities long-term liabilities are normally paid from the funds reporting the liability, namely the South Shore Country Club, Weir River Water System, or Hingham Municipal Lighting Plant.

**NOTE 11 - LONG-TERM DEBT**

Under the provisions of Chapter 44, Section 10, Municipal Law authorizes indebtedness up to a limit of 5% of the equalized valuation. Debt issued in accordance with this section of the law is designated as being "inside the debt limit". In addition, however, debt may be authorized in excess of that limit for specific purposes. Such debt, when issued, is designated as being "outside the debt limit".

Details related to the outstanding indebtedness at June 30, 2022, and the debt service requirements are as follows:

***Bonds and Notes Payable - Governmental Funds***

Project	Date of Issue	Maturity Date	Interest Rate (%)	Outstanding at June 30, 2021	Issued	Redeemed	Outstanding at June 30, 2022

**\* Notes from direct borrowings**

The Massachusetts Clean Water Trust (MCWT) operates a water pollution abatement bond program for community owned water systems. For each community approved for the project, financial assistance received from the MCWT consists of subsidized interest-bearing loans payable in annual installments. At June 30, 2022, the outstanding principal amount of these loans totaled \$115,657.

The Town acquired several school buses under financed purchase agreements with Wells Fargo and Santander Bank. The titles to the school buses transfer ownership to the Town upon delivery. Principal and interest is payable in annual installments. At June 30, 2022, the outstanding principal amount due for these agreements totaled \$1,609,500.

Debt service requirements for principal and interest for governmental funds in future fiscal years are as follows:

At June 30, 2022, approximately \$2.2 million has been set aside in a stabilization fund classified as unassigned balance in the general fund in the governmental funds financial statements. Municipal finance laws of the Commonwealth of Massachusetts authorize municipalities to establish stabilization funds on an as needed basis. The number of and exact purpose of the stabilization funds of the Town are dependent upon authorization and approval of Town Meeting. The stabilization fund balance can be used for general and/or capital purposes upon approval of Town Meeting. Additions to the fund can only be made upon Town Meeting approval.

**NOTE 13 - RISK FINANCING**

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. The amount of claim settlements has not exceeded insurance coverage in any of the previous three years.

The Town participates in premium-based health care plans for its active employees and retirees. The Town is self-insured for workers' compensation and unemployment benefits, and also self-insures property coverage over a group of vacant buildings given to them by the federal government. The Town maintains liability coverage on these respective buildings. The Town records an estimated liability for workers' compensation claims based on estimates of the ultimate cost of reported claims and an estimate for claims incurred but not reported based on historical experience. At June 30, 2022, the estimated liability for workers' compensation claims totaled \$363,540; which includes \$185,405 of claims due within one year.

Changes in the Workers' Compensation claims liability amount for the years ended June 30 were as follows:

	Balance at Beginning of Fiscal Year		Current Year Claims and Changes in Estimate		Claims Payments		Balance at Fiscal Year-end
Fiscal year 2021.....	\$ 257,380	\$	402,676	\$	(388,380)	\$	271,676
Fiscal year 2022.....	271,676		733,038		(641,174)		363,540

Unemployment claims at June 30, 2022 are considered to be immaterial for these financial statements.

**NOTE 14 - PENSION PLAN - HINGHAM CONTRIBUTORY RETIREMENT SYSTEM**

General Information

**Plan Description** - The Town is a member of the Hingham Contributory Retirement System (HCRS), a cost-sharing multiple employer defined benefit pension plan covering eligible employees of the 3 member units. The System is administered by five board members (Board) on behalf of all current employees and retirees except for current teachers and retired teachers. Chapter 32 of the MGL assigns authority to establish and amend benefit provisions of the plan. The System is included in the financial statements as a blended fiduciary component unit.

**Benefits Provided** - The System provides retirement, disability, survivor and death benefits to plan members and beneficiaries. The System provides retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For persons who became members on or after April 2, 2012, average salary is the average annual rate of regular compensation received during the five consecutive years that produce the highest average, or, if greater, during the last five years (whether or not consecutive) preceding retirement. Benefit payments are based upon a member's age, length of creditable service, level of compensation, and group classification. Members become vested after ten years of creditable service.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of their accumulated total deductions. Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

Cost-of-living adjustments granted between 1981 and 1997 and any increase in other benefits imposed by the Commonwealth's state law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be approved by the Board and are borne by the System.

**Plan Membership** - At December 31, 2021, the System's membership consists of the following:

Active members.....	610
Retirees and beneficiaries entitled to but not yet receiving benefits.....	332
Retirees and beneficiaries currently receiving benefits.....	359
 Total.....	 1,301

**Contributions** - Chapter 32 of the MGL governs the contributions of plan members and member units. Active plan members are required to contribute at rates ranging from 5% to 9% of gross regular compensation with an additional 2% contribution required for compensation exceeding \$30,000. The percentage rate is keyed to the date upon which an employee's membership commences. The member units are required to pay into the HCRS a legislatively mandated actuarial determined contribution that is apportioned among the employers based on active current payroll. The total member units' contribution for the year ended December 31, 2021 was \$6,150,439, which is actuarially determined as an amount that, when combined with plan member contributions, is expected to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The Town's proportionate share of the required contribution was \$5,443,559 which equaled its actual contribution.

**Actuarial Assumptions** - The total pension liability was determined by an actuarial valuation as of January 1, 2022, which was rolled back to the measurement date of December 31, 2021, using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date.....	January 1, 2022
Investment rate of return/Discount rate.....	7.25%, net of pension plan investment expense, including inflation (previously 7.40% as of January 1, 2020)
Projected salary increases.....	Group 1: 4.25%-6.00%, based on service Group 4: 4.75%-7.00%, based on service
Inflation rate.....	2.40% per year
Cost of living adjustments.....	3.00% of the first \$14,000 of retirement income
Mortality Rates.....	RP-2014 Blue Collar Mortality Table with full generational mortality improvement using Scale MP-2020. For disabled lives, the mortality rates were based on the RP-2014 Blue Collar Mortality Table set forward one year with full generational mortality improvement using Scale MP-2020.
Actuarial cost method.....	Entry Age Normal

- Amortization method..... Increasing dollar amount at 4% to reduce the Unfunded Actuarial Accrued Liability to zero on or before June 30, 2033
- Remaining amortization period.....11 years from July 1, 2022
- Asset valuation method..... The Actuarial Value of Assets is the market value of assets as of the valuation date reduced by the sum of:
  - a.) 80% of gains and losses of the prior year,
  - b.) 60% of gains and losses of the second prior year,
  - c.) 40% of gains and losses of the third prior year and,
  - d.) 20% of gains and losses of the fourth prior year.
 Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value. The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value.

**Investment Policy** - The pension plan’s policy in regard to the allocation of invested assets is established by PRIT. Plan assets are managed on a total return basis with a long-term objective of achieving a fully funded status for the benefits provided through the pension plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the pension plan’s target asset allocation as of December 31, 2021 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return	Long-Term Expected Asset Allocation
Global equity.....	4.22%	38.00%
Fixed income.....	4.70%	23.00%
Private equity.....	7.70%	15.00%
Real estate.....	3.60%	10.00%
Timber/Natural Resources.....	4.20%	4.00%
Portfolio Completion (PCS).....	3.00%	10.00%
		<u>100.00%</u>

**Rate of Return** - For the year ended December 31, 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 19.72%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Plan Reporting

**Net Pension Liability** - The components of the net pension liability of the participating member units at December 31, 2021 were as follows:

Total pension liability.....	199,217,622
Fiduciary net position.....	<u>(174,434,337)</u>
Net pension liability.....	<u><u>24,783,285</u></u>
Plan fiduciary net position as a percentage of the net pension liability.....	87.56%

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate** - The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
System's Net Pension Liability	\$ <u><u>47,031,311</u></u>	\$ <u><u>24,783,285</u></u>	\$ <u><u>5,924,851</u></u>

Employer Reporting

**Net Pension Liability** - At June 30, 2022, the Town reported a liability of \$21,934,902 for its proportionate share of the net pension liability. At December 31, 2021, the Municipal Light Plant reported a liability of \$3,104,781 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2021 for the Town and December 31, 2020 for the Municipal Light Plant. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2022 for the Town and as of January 1, 2020 for the Municipal Light Plant.

The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members. At December 31, 2021, the Town's proportion was 88.51%, compared to a proportion of 88.57% in the prior year. At December 31, 2020, the Hingham Municipal Light Plant's proportion was 7.27%, compared to a proportion of 7.37% as of December 31, 2019.

**Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources** - For the year ended June 30, 2022, the Town recognized pension expense of \$1,086,333. At June 30, 2022, the Town reported deferred outflows of resources related to pensions of \$3,370,999 and deferred inflows of resources related to pensions of \$19,526,901, from the following deferred categories:

Deferral Category:	Town of Hingham		Municipal Lighting Plant (12/31/21)		Total	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience.....	\$ -	\$ 1,237,345	\$ -	\$ 176,819	\$ -	\$ 1,414,164
Differences between projected and actual earnings.....	-	17,358,567	-	583,663	-	17,942,230
Changes of assumptions.....	2,411,601	-	198,033	-	2,609,634	-
Changes in proportion and differences between actual and proportionate share of contributions.....	57,037	111,480	247,897	59,027	304,934	170,507
Contributions subsequent to the measurement date.....	-	-	456,431	-	456,431	-
	\$ <u><u>2,468,638</u></u>	\$ <u><u>18,707,392</u></u>	\$ <u><u>902,361</u></u>	\$ <u><u>819,509</u></u>	\$ <u><u>3,370,999</u></u>	\$ <u><u>19,526,901</u></u>

The Town's amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended June 30:</u>	<u>Amount</u>
2023.....	\$ (3,658,903)
2024.....	(5,519,963)
2025.....	(4,037,280)
2026.....	<u>(3,022,608)</u>
	<u>\$ (211,103,802)</u>

The \$456,431 reported as deferred outflows of resources related to pensions resulting from the Hingham Municipal Light Plant contributions subsequent to the measurement date but before the employer’s year-end will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The remaining net deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31:</u>	<u>Amount</u>
2022.....	\$ (121,853)

**Sensitivity of the net pension liability to changes in the discount rate** - The following presents the Town’s (excluding the Hingham Municipal Lighting Plant) proportionate share of the net pension liability as of the measurement date of 12/31/21, calculated using the discount rate of 7.25%, as well as what the Town’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
Town's Proportionate Share of the Net Pension Liability	\$ <u>41,625,926</u>	\$ <u>21,934,902</u>	\$ <u>5,243,898</u>

The following presents the Hingham Municipal Lighting Plant’s proportionate share of the net pension liability as of the measurement date of 12/31/20, calculated using the discount rate of 7.40%, as well as what the Hingham Municipal Lighting Plant’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.40%) or 1-percentage-point higher (8.40%) than the current rate:

	1% Decrease 6.40%	Current Discount Rate 7.40%	1% Increase 8.40%
Hingham Municipal Lighting Plant's Proportionate Share of the Net Pension Liability	\$ <u>4,633,301</u>	\$ <u>3,104,781</u>	\$ <u>1,809,900</u>

**NOTE 15 - PENSION PLAN - MASSACHUSETTS TEACHERS RETIREMENT SYSTEM**

General Information about the Pension Plan

*Plan description.* Public school teachers and certain administrators are provided with pensions through the Massachusetts Teachers’ Retirement System (MTRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Massachusetts Teachers’ Retirement Board. The MTRS is part of the Commonwealth of Massachusetts’ (Commonwealth) reporting entity and does not issue a stand-alone audited financial report. The MTRS is reported as a Pension Trust Fund in the Commonwealth’s audited financial statements that can be obtained at <https://www.macomptroller.org/annual-comprehensive-financial-reports/>.

*Benefits provided.* MTRS provides retirement, disability, survivor and death benefits to members and their beneficiaries. Massachusetts General Laws (MGL) establishes uniform benefit requirements. These requirements provide for superannuation retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For employees hired after April 1, 2012, retirement allowances are calculated on the basis of the last five years or any five consecutive years, whichever is greater in terms of compensation. Benefit payments are based upon a member's age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions rests with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of creditable service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65. Most employees who joined the system after April 1, 2012 cannot retire prior to age 60.

*Contributions.* The MTRS' funding policies have been established by Chapter 32 of the MGL. The Legislature has the authority to amend these policies. The annuity portion of the MTRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Member contributions for MTRS vary depending on the most recent date of membership, ranging from 5-11% of regular compensation. Members hired in 1979 or subsequent contribute an additional 2% of regular compensation in excess of \$30,000.

The Commonwealth is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of the member employers. Therefore, the Town is considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth is a nonemployer contributing entity in MTRS.

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Since the Town does not contribute directly to MTRS, the Town does not report a proportionate share of the net pension liability of the MTRS at June 30, 2022. The Commonwealth's net pension liability associated with the Town was \$112,689,867.

The MTRS' net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2021 rolled forward to June 30, 2021.

For the year ended June 30, 2022, the Town recognized pension expense of \$9,042,893 associated with MTRS and revenue of the same amount for support provided by the Commonwealth.

*Actuarial assumptions.* The MTRS' total pension liability for the June 30, 2021 measurement date was determined by an actuarial valuation as of January 1, 2021 rolled forward to June 30, 2021. This valuation used the following assumptions:

Investment rate of return - 7.00%

Salary increases - Salary increases are based on analyses of past experience but range from 4.0% to 7.5% depending on length of service

Mortality Rates - Pre-retirement reflects the Pub-2010 Teachers Employees mortality table (headcount weighted) projected generationally with Scale MP-2020 (gender distinct). Post-retirement reflects the Pub-2010 Teachers Retirees mortality table (headcount weighted) projected generationally with Scale MP-2020 (gender distinct). Disability is assumed to be in accordance with the Pub-2010 Teachers Retirees mortality table (headcount weighted) projected generationally with Scale MP-2020 (gender distinct).

Other - 3.5% interest rate credited to the annuity savings fund and 3.0% cost of living increase per year.

Investment assets of the MTRS are with the Pension Reserves Investment Trust (PRIT) Fund. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund’s target asset allocation as of June 30, 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity.....	39.0%	4.8%
Core Fixed Income.....	15.0%	0.3%
Private Equity.....	13.0%	7.8%
Portfolio Completion Strategies.....	11.0%	2.9%
Real Estate.....	10.0%	3.7%
Value Added Fixed Income.....	8.0%	3.9%
Timber/Natural Resources.....	4.0%	4.3%
	<u>100.0%</u>	

*Discount rate.* The discount rate used to measure the MTRS’ total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth’s contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rates. Based on those assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Pension plan fiduciary net position.* Detailed information about the MTRS’ fiduciary net position is available in the Commonwealth’s audited financial statements.

**NOTE 16 - OTHER POST EMPLOYMENT BENEFITS**

General Information

*Plan Description* - The Town maintains a single employer defined benefit healthcare plan (“The Other Postemployment Benefit Plan”). The plan provides lifetime healthcare and life insurance for eligible retirees and their spouses. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions of the Plan. The plan provides the benefits by participating in the Mayflower Municipal Health Group. Medical and prescription drug benefits are provided to all eligible retirees through a plan offered by Blue Cross Blue Shield of Massachusetts. Benefit provisions are negotiated between the Town and the unions representing Town employees and are renegotiated each bargaining period. The plan also pays approximately 50% of the retiree life insurance premiums. The OPEB Plan does not issue a publicly available financial report.

The Town adopted MGL, Chapter 32B, Section 18 in April 2006, requiring all Medicare-eligible retirees to enroll in a Medicare supplement plan. The effects of this adoption have been included in the actuarial determination of OPEB liabilities by the Town’s actuary.

**Plan Membership** - The number of participants as of June 30, 2022 is as follows:

Active members.....	974
Retirees and beneficiaries currently receiving benefits.....	558
Total.....	1,532

**Funding Policy** - Contribution requirements are also negotiated between the Town and union representatives. Retired plan members and beneficiaries currently receiving benefits are required to contribute between 10% and 50% of the cost of benefits provided depending on the plan they choose. The Town and the HMLP are required to contribute the balance of the current premiums and may contribute additional amounts to pre-fund benefits. Administrative costs of the Plan are assumed to be included in the fully insured premium rates.

The Commonwealth of Massachusetts passed special legislation that has allowed the Town to establish the Postemployment Benefit Trust Fund and to enable the Town to raise taxes necessary to begin pre-funding its OPEB liabilities. During 2022, the Town pre-funded future OPEB liabilities in the amount of \$1,267,567.

The annual money-weighted rate of return on OPEB plan investments was (4.37%). The money-weighted rate of return expresses investment performance, net of OPEB plan investment expense, adjusted for the changing amount actually invested.

**Significant Actuarial Methods and Assumptions** - The Plan’s total OPEB liability is based on a July 1, 2021 actuarial valuation rolled forward to June 30, 2022. The significant methods and assumptions used to measure the total OPEB liability are as follows:

- Valuation date..... July 1, 2021
- Actuarial cost method..... Entry Age Normal
- Investment rate of return.....6.6%, net of investment expenses, including inflation
- Healthcare cost trend rate.....7 percent for 2021, decreasing 0.60 percent per year to 5.7 percent, then grading down to an ultimate trend rate of 3.9 percent, utilizing the Society of Actuaries Getzen Medical Trend Model. The ultimate medical inflation rate is reached in 2075.
- Amortization Method..... Increasing at 3.5% over 30 years on an open amortization period
- Mortality..... Pre/Post-Retirement General and Public Safety: RP-2014 Blue Collar, projected with generational mortality improvement using scale MP-2020.  
  
Pre/Post-Retirement Teachers: PUB-2010 Teachers Headcount-Weighted Employee Mortality Table, base year 2010, projected with generational mortality using Scale MP-2020.

**Investment Policy** - The Town’s policy in regard to the allocation of invested assets is established and may be amended by the Select Board by a majority vote. The OPEB plan’s assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the OPEB plan. The long-term real rate of return on OPEB investments was determined using the Town’s investment policy.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class include in the target asset allocation as of June 30, 2022 are summarized in the following table:

Asset Class	Long-Term Expected Asset Allocation	Long-Term Expected Real Rate of Return
Global Equity.....	38.00%	4.21%
Private Equity.....	15.00%	7.70%
Core Fixed Income.....	15.00%	0.19%
Value Added Fixed Income.....	8.00%	4.00%
Real Estate.....	10.00%	3.60%
Timberland.....	4.00%	4.20%
Portfolio Completion Strategies.....	10.00%	3.00%
	100.00%	

**Discount Rate** - The discount rate used to measure the total OPEB liability was 6.6%. The projection of cash flows used to determine the discount rate assumed that contributions from the Town will be made in accordance with the Plan’s funding policy. Based on those assumptions, the OPEB Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Plan Reporting

**Components of the Net OPEB Liability** - The following table represents the components of the Plan’s Net OPEB liability as of the measurement date of June 30, 2022:

Total OPEB Liability.....	\$ 89,645,704
Plan Fiduciary Net Position.....	(23,633,903)
Net OPEB Liability.....	\$ 66,011,801
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability.....	26.4%

**Sensitivity of the Net OPEB liability to Changes in the Discount Rate** - The following table presents the plan's net other postemployment benefit liability, calculated using the discount rate of 6.6%, as well as what the plan's net other postemployment benefit liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.6%) or 1-percentage-point higher (7.6%) than the current rate.

	1% Decrease (5.6%)	Current Discount Rate (6.6%)	1% Increase (7.6%)
Plan's Net OPEB Liability	\$ <u>78,625,592</u>	\$ <u>66,011,801</u>	\$ <u>55,714,884</u>

**Sensitivity of the net OPEB Liability to Changes in the Healthcare Trend Rate** - The following table presents the net other postemployment benefit liability, calculated using the current healthcare trend rate, as well as what the net other postemployment benefit liability would be if it was 1-percentage-point lower or 1-percentage-point higher than the current rate.

	1% Decrease	Current Trend Rate	1% Increase
Plan's Net OPEB Liability	\$ <u>54,479,548</u>	\$ <u>66,011,801</u>	\$ <u>80,350,103</u>

### Employer Reporting

**Net OPEB Liabilities** - The following table represents the components of the Town's proportion of the net OPEB liability as of the measurement date of June 30, 2022:

	Total OPEB Liability (a)	Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance at June 30, 2021	\$ 85,323,474	\$ 21,102,139	64,221,335
Changes for the year:			
Service Cost	2,108,705	-	2,108,705
Interest	5,648,195	-	5,648,195
Differences between expected and actual experience	(221,832)	-	(221,832)

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** - For the year ended June 30, 2022, the Town recognized OPEB expense of \$6,360,799. At June 30, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Deferral Category:</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Total</u>
Differences between actual and expected experience.....	\$ -	\$ 9,491,516	\$ 9,491,516
Differences between projected and actual earnings.....	280,087	-	280,087
Changes of assumptions.....	10,101,377	2,749,220	12,850,597
	<u>\$ 10,381,464</u>	<u>\$ 12,240,736</u>	<u>\$ 22,622,200</u>

The Town’s amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ended June 30:</u>	<u>Amount</u>
2023.....	\$ (10,909)
2024.....	(52,391)
2025.....	(744,158)
2026.....	(540,291)
2027.....	(61,939)
Thereafter.....	<u>(449,584)</u>
	<u>\$ (1,859,272)</u>

For the year ended December 31, 2021, the Hingham Municipal Lighting Plant recognized OPEB expense of \$528,058. At December 31, 2021, the Hingham Municipal Lighting Plant reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Deferral Category:</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>	<u>Total</u>
Differences between actual and expected experience.....	\$ -	\$ (506,554)	\$ (506,554)

#### NOTE 18 - COMMITMENTS

The Town is authorized to borrow approximately \$37 million for various projects throughout the Town. Additionally, significant encumbrances and continuing appropriations from the general fund totaled \$3,782,634.

The HMLP has various power purchase commitments as more fully described in Note 19.

**NOTE 19 - POWER PURCHASE COMMITMENTS**Power Purchase Commitments

Hingham Municipal Lighting Plant has entered into various power contracts through Energy New England (ENE), as their acting agent. These power contracts began in 2008 and some go through to the life of the unit.

HMLP is a .5% entitlement owner in the Seabrook nuclear power plant and is entitled to almost 6MW. The average 2021 energy price for Seabrook was \$0.00464/kWh. This contract is a life of unit contract.

HMLP is a .1% entitlement owner in the Millstone nuclear power plant and is entitled to almost 1 ¼ MW. The average 2021 energy price for Millstone was \$0.00659/kWh. This contract is a life of unit contract.

HMLP is a 6% entitlement owner in the Brown Bear (formerly Miller Hydro) plant for hydroelectric renewable energy and is entitled to almost 1.2 MW. The HMLP is contracted with Brown Bear through 2025. The average 2021 energy price for Brown Bear was \$0.05196/kWh.

HMLP has entered into a 15-year contract terminating in 2026 with Spruce Mountain Wind Farm for renewable wind energy. HMLP has an ownership entitlement of 9% with a commitment to purchase almost 2 MW. The average 2021 energy price for Spruce Mountain Wind was \$0.09925/kWh.

HMLP has entered into a 20-year contract terminating in 2035 with Saddleback Ridge Wind for renewable wind energy. HMLP has an ownership entitlement of 5.6% with a commitment to purchase almost 2 MW. The average 2021 energy price for Saddleback Ridge Wind was \$0.09725/kWh.

HMLP has entered into a 20 year contract terminating in 2037 with Canton Mountain. HMLP has an ownership entitlement of 7.25% in this 20 MW facility, which should provide about 5,000 megawatt-hours of electricity annually for the Lighting Plant. The average 2021 energy price for Canton Mountain Wind was \$0.10480/kWh.

HMLP has a supply contract with the Commonwealth New Bedford Landfill for 25% of the output from the 3.2 megawatt plant. In 2021, HMLP received 4,309,015 kWh of electricity from this facility at an average cost of \$0.04035/kWh.

HMLP has entered into a twenty-five year contract terminating in 2041 with NUGen-Harrington St. PV for renewable solar energy. HMLP has an ownership entitlement of 20% in each of the two 5.996 MW DC facilities. Each facility is projected to produce about 7,000 megawatt-hours of electricity each year with a degradation rate of approximately 0.5% per annually. In 2021, these two facilities produced a combined 50k kWh of electricity for HMLP at an average cost of \$0.06474/kWh.

HMLP has entered into a 19-year contract terminating in 2037 with Granite Reliable Power for renewable wind energy. The project began delivering power on January 1, 2019 and has thirty-three (33) wind turbines each having a nameplate rating of 3 megawatts in the Town of Coos County, New Hampshire. HMLP has an ownership entitlement of 1.1% in this facility which meant HMLP received about 1.09 MW of electricity. The average 2021 energy price for Granite Wind was \$0.07004 per kWh.

HMLP is a 2% entitlement owner in the NYPA Hydro Base and Peaking plants for hydroelectric renewable energy. The contracts are life of unit contracts. The average 2021 energy price for the NYPA units is \$0.004936/kWh.

HMLP has entered into a contract with Firstlight Power Resources, a hydroelectric generating facility entity, located in Connecticut commencing in March of 2019 and commencing through the end of 2023. HMLP is entitled to 3.55% of the Shepaug hydroelectric station's output and 2.51% of the Stevenson hydroelectric station's output. Between both plants HMLP received approximately 8,238,633 /kWh and the average 2021 energy price for Firstlight electricity was \$0.04958 per kWh.

HMLP has entered into a contract with Firstlight Power Resources, a hydroelectric generating facility entity, located in Connecticut commencing in January of 2021 and commencing through the end of 2030. For 2021 HMLP contracted for 2.20% On-Peak and 1.32% Off-Peak of the Cabot & Turner Falls hydroelectric station's output. Between both plants, HMLP received approximately 6,012,176 / kWh and the average 2021 energy price for Cabot/Turners Falls Electricity was \$0.04108 /kWh.

Hingham Municipal Lighting Plant has entered into a contract with Braintree Electric Lighting Department as a 10% entitlement owner to the Watson Power Plant. This purchase power contract is effective from 2009 thru 2029. Watson Units 1 and 2 entitle HMLP to 11.4 MWs. They are natural gas fired, but can burn oil if needed for reliability. The average 2021 energy price for Watson was \$0.01764 /kWh. HMLP is a 2.3% entitlement owner to Potter 2 CC which is a life of unit contract. Potter 2 CC entitles HMLP to 2.1 MW of electricity when the plant runs.

HMLP is an entitlement owner in the Stony Brook Intermediate (4%) and Peaking (5 1/3%) units. The Intermediate units can run on either gas or oil while the peaking unit runs on oil. Units 1A, B and C of the Intermediate entitle HMLP to a total of 14 MW. Units 2A and B of the Peaking units entitle HMLP to a total of 9.2MW. The contracts are for the life of the units. The average 2021 energy price for the Peaking units was \$0.14937/kWh. The average 2021 energy price for the Intermediate units was \$0.04030/kWh.

HMLP has other contracts with various generators, which allows for the purchase of energy when various price points come into play. In 2021, the companies HMLP bought from under this agreement were NextEra, Shell Energy, and Excelon/Constellation. For NextEra the average per kWh price was \$0.05045, Shell was \$0.02760, and Excelon/Constellation's was \$0.04830.

Additionally, HMLP has the ability to purchase from ISO-New England's Energy Interchange. In 2021, HMLP paid \$0.05701/kWh for energy through ISO-New England.

HMLP entered into a ten-year power purchase agreement with NextEra starting on January 1, 2020. The Contract provides 2.5 megawatts of electricity every hour. The price is \$40.87/MWH, escalating at 2.5% annually.

#### MMWEC Contingencies and Liabilities

The Town of Hingham acting through its Light Department is a Participant in certain Projects of the Massachusetts Municipal Wholesale Electric Company (MMWEC).

MMWEC is a public corporation and a political subdivision of the Commonwealth of Massachusetts, created as a means to develop a bulk power supply for its Members and other utilities. MMWEC is authorized to construct, own, or purchase ownership interests in, and to issue revenue bonds to finance, electric facilities (Projects). MMWEC has acquired ownership interests in electric facilities operated by other entities and also owns and operates its own electric facilities. MMWEC operates the Stony Brook Intermediate Project and the Stony Brook Peaking Project, both fossil-fueled power plants. MMWEC has the Nuclear Mix No 1 Project, Nuclear Project Three, Nuclear Project Four, Nuclear Project Five and Project Six, which comprise an 11.6% ownership interest in the Seabrook Station nuclear generating unit operating by NextEra Energy Seabrook, LLC and a 4.8% ownership interest in the Millstone Unit 3 nuclear unit, operated by Dominion Nuclear Connecticut, Inc. The operating license for Seabrook Station extends to March 15, 2050. The operating license for the Millstone Unit 3 nuclear unit extends to November 25, 2045.

MMWEC sells all of the capability (Project Capability) of each of its Projects to its Members and other utilities (Project Participants) under Power Sales Agreements (PSAs). The Light Department has entered into PSAs with MMWEC. Under the PSAs the Department is required to make certain payments to MMWEC payable solely from the Municipal Light Department revenues. Among other things, the PSAs require each Project Participant to pay its pro rata share of MMWEC's costs related to the Project, which costs include debt service on the revenue bonds issued by MMWEC to finance the Project. In addition, should a Project Participant fail to make any payment when due, other Project Participants of that Project may be required to increase (step-up) their payments and correspondingly their Participant's share of that Project's Project Capability. Project Participants have covenanted to fix, revise and collect rates at least sufficient to meet their obligations under the PSAs. Each Participant is unconditionally obligated to make payments due to MMWEC whether or not the Project(s) is completed or operating and notwithstanding the suspension or interruption of the output of the Project(s).

Pursuant to the PSAs, the MMWEC Project Participants are liable for their proportionate share of the costs associated with decommissioning the plants, which costs are being funded through monthly Project billings. Also, the Millstone and Seabrook Project Participants are liable for their proportionate share of the uninsured costs of a nuclear incident that might be imposed under the Price-Anderson Act (Act). Originally enacted in 1957, the Act has been renewed several times. In July 2005, as part of the Energy Policy Act of 2005, Congress extended the Act until the end of 2025.

MMWEC is involved in various legal actions. In the opinion of management, the outcome of such litigation or claims will not have a material adverse effect on the financial position of the company.

The total capital expenditures and annual capacity, fuel, and transmission costs (which include debt service and decommissioning expenses as discussed above) associated with the Department's Project Capability of the Projects in which it participates for the years ended December 31, 2021 and 2020, respectively are listed below.

Projects	Percentage Share	Total Capital Expenditures 2021	Capacity, Fuel and Transmission Billed 2021	Capacity, Fuel and Transmission Billed 2020
Stony Brook Peaking	\$ 5.3307%	\$ 3,301,942	\$ 212,743	\$ 201,347
Stony Brook Int.	4.3870%	8,035,920	639,119	609,256

		<u>\$ 56,096,962</u>	<u>\$ 2,534,023</u>	<u>\$ 2,565,755</u>

**NOTE 20 - CONTINGENCIES**

Various legal actions and claims are pending against the Town. Litigation is subject to many uncertainties, and the outcome of individual litigated matters is not always predictable. Although the amount of liability, if any, at June 30, 2022, cannot be ascertained, management believes any resulting liability should not materially affect the financial position of the Town at June 30, 2022.

The Town participates in a number of federal award programs. Although the grant programs have been audited in accordance with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) through June 30, 2022, these programs are still subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

Net change in recording other revenues and expenditures.....	-	(104,141)	-
To record MTRS on-behalf payments.....	9,042,893	9,042,893	-
To reclassify property and liability insurance expenditures.....	-	(1,028,087)	-
To reclassify workers' compensation activities.....	-	(8,826)	-
To reclassify the stabilization funds to the general fund.....	8,617	-	(178,837)
To reclassify the municipal buildings trust funds to the general fund.....	-	1,019,428	-
To reclassify Weir River Water System tax payments.....	(730,221)	-	730,221
To reclassify the employee benefits trust funds to the general fund.....	-	(47,328)	-
GAAP basis as reported on the statement of revenues, expenditures and changes in fund balances.....	<u>\$ 124,640,699</u>	<u>\$ 122,403,395</u>	<u>\$ (1,501,920)</u>

**NOTE B – SCHEDULE OF EMPLOYER CONTRIBUTIONS – PENSION**

The following methods and assumptions from the January 1, 2020 valuation were used to determine the most recent actuarially determined contribution rates:

Methods:

Actuarial Cost Method	Entry Age Normal Cost
Asset Valuation Method	The Actuarial Value of Assets is the market value of assets as of the valuation date reduced by the sum of:
	a.) 80% of gains and losses of the prior year,
	b.) 60% of gains and losses of the second prior year,
	c.) 40% of gains and losses of the third prior year and,
	d.) 20% of gains and losses of the fourth prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value. The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value.

Assumptions:

Salary Increases	Group 1: 4.25-6.00% per year, based on service Group 4: 4.75-7.00% per year, based on service
Investment Rate of Return	7.4%, net of pension plan investment expense, including inflation.
Cost of Living Adjustment	3.0% annually on the first \$14,000
Mortality	Mortality rates were based on the RP-2014 Blue Collar Mortality Table with the full generational mortality improvement using Scale MP-2018. For disabled lives, the mortality rates were based on the RP-2014 Blue Collar Mortality Table set forward one year with full generational mortality improvement using Scale MP-2018.

**NOTE C – METHODS AND ASSUMPTIONS – ACTUARIALY DETERMINED CONTRIBUTIONS – OPEB**

The following methods and assumptions from the July 1, 2019 valuation were used to determine the most recent actuarially determined contribution rates:

Methods:

Actuarial Cost Method	Entry Age Normal Cost
Asset Valuation Method	Market Value
Amortization Method	Increasing at 3.5% over 30 years on an open amortization period for partial pre-funding.

Assumptions:

Remaining Amortization Period	30 years as of July 1, 2019
Inflation Rate	2.20%
Healthcare/Medical Cost Trend Rate	7.5% for 2021, decreasing 0.6 percent per year to 5.7 percent, then grading down to an ultimate trend rate of 3.9 percent, utilizing the Society of Actuaries Getzen Medical Trend Model. The ultimate medical inflation rate is reached in 2075.

# **Combining and Individual Fund Statements**

# Nonmajor Governmental Funds

## Narrative

### *Special Revenue Funds*

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The special revenue funds are grouped into the following categories:

*Town Gifts* – These funds are used to account for gifts received by the Town. These include unrestricted and restricted gifts and the expenditures relating to these gifts.

*School Gifts* – These funds are used to account for gifts received by the Town to be used specifically by the School Department.

*Town Grants* – This fund accounts for intergovernmental state grants received by the Town and related expenditures.

*School State Grants* – This fund is used to account for specific state grants received by the Town to be used by the School Department and the related expenditures.

*School Federal Grants* – This fund is used to account for specific federal grants received by the Town to be used by the School Department and the related expenditures.

*Affordable Housing Trust* – This fund is used to account for the Town’s affordable housing program.

*School Revolving* – This fund is used to account for self-supporting programs sponsored by the Town.

*Town Revolving* – This fund is used to account for activity where specific revenues are earmarked for specific purposes.

*Town Trusts* – This fund is used to account for revenues and expenditures relating to other various programs provided for the Town residents.

*Town Other* – This fund is used to account for revenues and expenditures related to other various programs provided for the Town residents.

*Preservation Projects* – This fund is used to account for revenues and expenditures related to other various programs provided for the Town preservation projects.

*Conservation* – This fund is used to account for revenues and expenditures related to other various programs provided for the Town conservation projects.

*Sewer Inflow/Infiltration* – This fund is used to account for revenues and expenditures relating to the maintenance of the sewer inflow/infiltration system of the Town.

*Sewer Maintenance* – This fund is used to account for revenues and expenditures for the sewer system.

### ***Capital Projects Funds***

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The capital projects funds are grouped into the following categories:

*Sewer* – This fund is used to account for the construction/repairs of the Town’s sewer system.

*Foster School* – This fund is used to account for the planning and repair of the Foster Elementary School.

*Plymouth River School* – This fund is used to account for the planning and repair of the Plymouth River School.

*Middle School Additions* – This fund is used to account for the planning and repair of the Town’s Middle School.

*Middle School Building Project* – This fund is used to account for all activity relating to the Middle School Building project

*New Elementary School* – This fund is used to account for the construction of the East elementary school.

*High School Field Improvements* – This fund is used to account for the renovations to the High School track and fields.

*The South Shore Regional Emergency Communications Center* – This fund is used to account for the operations of the regional dispatch center for the Towns of Hingham, Cohasset, Hull and Norwell.

*Recreation Drive*– This fund is used to account for recreational land acquisition and improvements.

*Lincoln School Apartment Windows*– This fund is used to account for window replacements at Lincoln School Apartments.

*Other* – This fund is used to account for capital expenditures not already assigned to any other fund.

### ***Permanent Funds***

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the government’s programs and benefit the government or its citizenry. The permanent funds are grouped into the following categories:

*Conservation* – This fund is used to account for assets relating to the environmental conservation of various plots of land in the Town.

*Town*– This fund is used to account for activity relating to various maintenance and improvements to Town property.

Town of Hingham, Massachusetts  
Annual Comprehensive Financial Report  
For the Year Ended June 30, 2022

## *Statistical Section*

This part of the Town of Hingham’s annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town’s overall financial health.

### Financial Trends (pages 117 – 120)

*These schedules contain trend information to help the reader understand how the Town’s financial performance and well-being have changed over time.*

### Revenue Capacity (pages 121 – 129)

*These schedules contain information to help the reader assess the Town’s most significant local revenue source, the property tax.*

### Debt Capacity (pages 130 – 133)

*These schedules contain information to help the reader assess the affordability of the Town’s current levels of outstanding debt and the Town’s ability to issue additional debt in the future.*

### Demographic and Economic Information (pages 134 – 140)

*These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town’s financial activities take place.*

### Operating Information (pages 141 – 144)

*These schedules contain service and infrastructure data to help the reader understand how the information in the Town’s financial report relates to the services the Town provides and the activities it performs.*

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

The Town implemented GASB Statements #67, #68, and #71 in 2015 which required the net pension liability to be recorded for the first time. This also required the revision of the ending net position in 2014.

The Town implemented GASB Statement #75 in 2018 which required the net OPEB liability to be recorded for the first time. This also required the revision of the ending net position in 2017.

The Town implemented GASB Statement #84 in 2021 which required certain activities previously reported in the agency fund to be reported within governmental activities for the first time. This also required the revision of the ending net position in 2020.

- (1) Assessed valuations are determined annually as of January 1 and used for the year beginning on the next July 1. Taxable property in this chart refers only to real estate.
- (2) The Commissioner of Revenue makes a determination of the fair cash value of the taxable property in each municipality in order to determine appropriate relative values for the purpose of certain distributions to and assessments upon cities and towns. This is known as "equalized value".

(Dollar amounts in thousands)

(1) Massachusetts General Laws, Chapter 44, Section 10 states that a town shall not authorize indebtedness to an amount exceeding five percent (5%) of the town's equalized valuation as determined by the Commissioner of Revenue. As of June 30, 2020 the most recent valuation was as of Jan 1, 2020. A town may; however, borrow up to ten percent (10%) of such equalized valuation with the approval of the Emergency Finance Board established under Chapter 49 of the Acts of 1993.

(2) The Town of Hingham does not have a debt service fund.
