Re: WPA Form 1, 235 Summer Street, Narrative Description

The proposed activity would occur at the northwest corner of the property abutting Summer St. The existing conditions are gravel parking and lawn. The proposed work includes removing and replacing the existing gravel parking with a permeable sports court. Extending the existing evergreen buffer along Summer St and installing a 6' fence would also be included. The proposed work would occur completely outside of the 50' buffer and at the outside of the 100' buffer.

If you have any questions please do not hesitate to call.

Sincerely,
PARAGON LANDSCAPE CONSTRUCTION, INC.
