**Attachments:** June 24 2020 inspection report.pdf

Good afternoon Kevin,  
Attached is the inspection report from Chessia Consulting from today. We specifically discussed that no site work except for interior demolition could proceed until the PB acted on the applications. I understand that you told the team that information. The Planning Board requested the applicant consider what trees could be retained as part of the project. Nonetheless, dozens of trees were cleared without authorization. The ground was disturbed.

You do not have site plan approval, or an approved SWPPP in place and you do not have any erosion controls installed so you are vulnerable to a violation for impacting the resource areas.

I am copying the Building Commissioner on this as he is the enforcement officer for the Planning Board.

Thank you,

Mary

Town of Hingham Massachusetts
