

**PUBLIC NOTIFICATION – ROADWAY PAVING
POTENTIAL WATER DISCOLORATION**

“Please be advised that the towns of Hull and Hingham will be executing their annual road paving programs over the next month. The work performed may cause a disruption in the distribution system and potential periods of discolored water. Please contact the Weir River Water System if you experience any extended periods of discoloration. For more information please visit our website”

The Weir River Water System continues to meet or exceed water quality parameters. However, we do not recommend washing white clothes if you notice discolored water. We realize that you may be inconvenienced during this time and kindly ask for your patience and support as we develop long term solutions and take the necessary steps to prevent this issue in the future.

If you should have any questions, please contact operations at 781-740-6695 during standard business hours so that we can provide further information, or visit our website at www.weirriverwater.com
