

I am requesting permission to remove (3) trees that are all within 15'-25' from the rear of my house. All (3) trees are hanging above or very close to my daughter's and son's bedroom. Large branches have fallen with recent storms that have passed through, so I am nervous about the proximity of these trees to where my children play and sleep.

- Green circles indicate the locations of the (3) trees I'm requesting permission to remove
- White rectangle shows the location of my daughter's and son's bedroom.
