

# TOWN OF HINGHAM

Randy Sylvester  
DPW Superintendent

J R Frey, P.E.  
Town Engineer

May 4, 2021

## NOTICE TO UTILITIES

### **SUBJECT: Proposed Street Construction thru 2025**

Attached you will find a list of streets in the Town of Hingham that are scheduled for resurfacing through the 2025 construction season. This list will be adjusted based on budget and efficiency, and should be used as a planning tool.

As you know, that in accordance with the General By-Laws of the Town of Hingham, the regulations of the Public Works Superintendent entitled, "Street Excavations," on Page 7, 1<sup>st</sup> paragraph states "Street surface openings henceforth will be restricted for a period of AT LEAST five (5) years after a new permanent surface is laid, except in cases of extreme emergency." Since modern bituminous concrete surface materials remain in excellent condition for many years beyond the aforesaid period and since such openings are the greatest single contributor to pavement deterioration, utility companies and contractors will be strictly limited in their ability to excavate within the Town's Right-of-Way.

To improve compliance with the by-laws, you are encouraged to thoroughly investigate the condition of your specific utilities in these roads. If for any reason you are planning to upgrade, repair or add new utility services in these roads, please coordinate your work with the Town of Hingham Engineering Division to ensure that you can complete your work prior to reconstruction of our roads.

If you should have any questions or concerns regarding this schedule, please feel free to call or email me at your convenience.

Respectfully,

J R Frey, P.E.  
*Town Engineer*
