**Subject:** 4 Jordan Way Decision Modification  
**Attachments:** Town Clerk Stamped Notice of Decision 8.16.21.pdf; 4 Jordan Way modify Site Plan.pdf

Hi Tracey,

As required, I'm sending a Request to Modify my decision for 4 Jordan Way Lot 4A. Specifically, under DECISION on page 4, #3:

*Prior to issuance of a building permit, the applicant shall place the boulders shown on the Site Plan along the Tree Preservation Area Boundary and such boulders shall be maintained in such locations.*

I'd like to ask that this be completed at the end of the development, not at the beginning. All three previous Lots (2A, 3A & 5A) were completed at the end. The reason being, placing boulders can get in the way of tree planting and in this case actual house construction as well (see attachment and circled boulders).

I want to note that the Tree Preservation in the front circle already has red fencing in place and the rear Tree Preservation has erosion control in front of it as required.

Thank you for your consideration.
