Michael and Emily,
Happy New Year.

Please see the attachment in response the request for waivers on e,g,h, and j.

Regarding the other two questions, there are no trees to be removed within the project. It is being built upon an existing small putting green.

According to the contractor, the foundation cut is only for the 4' footings with a 3' overdig for the 1200 square foot slab. Any excess fill from this would be used on site at the driving range.

Please feel free to call with any questions.

Thank you.

George

Good morning George,

I hope you had a nice Christmas. After reviewing your Site Plan Review application for 19 Clubhouse Drive, the Planning office offers the following questions/comments:

- Please provide a separate attachment providing a reason and request for waivers of submittal requirements e, g, h, and j.
- Is there any tree removal proposed?
- How much cut and fill is associated with this project?

Thank you and we look forward to seeing you at the Zoom hearing on the 9th.

Thanks,

Mike
