Dear Planning Board members,

Thank you for all your work on behalf of our town and particularly your efforts on the ADU planning—your efforts are greatly appreciated.

I wanted to voice my support for the current proposal made by the ADU Study Committee to remove the restriction that ADUs can only be rented to family members and I urge you to advance the Study Committee's proposal to remove this restriction to a Town Meeting vote.

Like so many towns, Hingham needs more housing options and by allowing a home owner to choose who they house in an ADU on their property seems to be a reasonable recommendation which should be advanced to Town Meeting for consideration by the voters.

Sincerely,

Michelle Ayer
