**Re: Waiver Request for Work Within the 50 Foot Buffer – Accord Pond
42 Whiting Street (Assessors Map 204 Lots 36 & 37)**

Dear Shannon;

Crocker Design Group, LLC (CDG) on behalf of the applicant, Weir River Water Systems, requests a waiver from the Hingham Wetland Regulations for work within the 50 foot Buffer Zone (HWR Section 22.0). The work is limited to areas that are already disturbed and the existing topography and surface conditions will be maintained post construction.

The proposed work within the Buffer Zone does not present any adverse effect to the wetland values for the various resource areas within the vicinity of the project. We would reference the revised narrative prepared October 16, 2025 that reviews the individual resources for further information.

Sincerely,
Crocker Design Group, LLC.
