

Trustees of the Hingham Bathing Beach

Community Preservation Committee Meeting

November 9, 2016

**Application for Harbor Boardwalk Extension
Bathing Beach Grove**

Harbor Boardwalk Extension Bathing Beach Grove

- Proposed walkway will provide another link in the planned harbor walkway/boardwalk.
- Builds a safer link between the Crow Point neighborhood and the Inner Harbor.
- Promotes use and access to the harborfront
- Walkway to be built above the revetment/armor stone wall (constructed with CPA Funds)

Harbor Boardwalk Extension Bathing Beach Grove

- Installation with semi permeable pavers as approved by the Historic District Commission and the Conservation Commissioner.
- Enables handicapped access to The Grove
- Will not disturb existing trees in The Grove
- Continues our progress towards implementation of the initiatives in the 2007 Master Plan for Hingham Harbor

Harbor Boardwalk Extension Bathing Beach Grove

- \$144,000 application
 - Based upon estimated linear footage of walkway through the Grove at the median rate the contractors bid for the walkway installed earlier this year at the beach.
 - 8 foot width x 600 foot length = 4800 square feet.
Estimated construction cost = 4800 x \$30 = \$144,000
- The project could be eligible for a post construction DCR reimbursement for up to \$50,000 under the DCR's paths and walkways program.
