

HINGHAM FIRE DEPARTMENT FIRE PREVENTION

210 Central Street
Hingham, MA 02043

Lieutenant Christopher DiNapoli
Fire Marshal

April 24, 2018

Members of the Zoning Board of Appeals,

It has come to my attention that several abutters to the proposed River Stone Project are concerned about blasting which may be required if construction commences on the site. 527 CMR 1.00 2015 Edition Chap 65 very explicitly covers the requirements restrictions and such for any blasting operation within the Commonwealth of Massachusetts. Items covered include but are not limited to pre-blast surveys, blast protection, blast logs etc. Any blasting to occur would require a permit from my office and the blasters must be licensed and bonded in Massachusetts. I do not feel conditions are required on a permit if issued as the code clearly states requirements for any type of blasting.

Should you have any further questions or concerns regarding this please do not hesitate to contact me.

Respectfully,

Lieutenant Chris DiNapoli
Fire Marshal, Town of Hingham
