

Remedial Investigation / Feasibility Study
 Hingham Naval Ammunition Depot
 Hingham, MA
 (FUDS # D01MA0022)

Field Work Schedule

Legend

- FUDS Property Boundary
- North Pier MRS
- Dump Area MRS
- South Pier MRS
- Furnace Area MRS
- Weymouth Back River MRS
- Burial Area MRS
- Background Areas
- Safety Zone for Unintentional Detonations during Intrusive Investigations - HFD = 377 feet

Data Source: ESRI, ArcGIS Online, Aerial Imagery
 Coordinate System: UTM, Zone 19N
 Datum: WGS84
 Units: Meters

Schedule

- North Pier MRS
- Dump Area MRS
- South Pier MRS
- Furnace Area MRS
- Weymouth Back River MRS
- Burial Area MRS
- Background Sampling

Notes:

- Activities in red require the establishment and maintenance of safety zones. During these activities the public will not be allowed inside the active safety zone.
- HFD = Hazardous Fragmentation Distance
- The safety zones (HFD) shown on the map are based on the full extent of the underwater intrusive investigation area. As dig locations are finalized, the map will be adjusted and safety zones will only be in effect for those areas where investigations are occurring.
