Hingham, Ma 02043

The following is Conservation application and supplemental materials for a shed.

We have purchased a pre-constructed 8X8 shed to be placed at the rear corner of our property at 83 Free St. Other than on-site assembly, no construction will be done and the shed will not be within the 50' wetlands. It will be resting on pavers or blocks, no permanent foundation. We have submitted a separate building application through building dept website for their approvals.

Conservation checklist materials have been sent electronically. Check for Wetlands fee of \$30 has been mailed.

Best,

Jay and Beth Compson
